ſ	
1	THURSDAY, JANUARY 27, 2022, CARSON CITY, NEVADA
2	-000-
3	CHAIRWOMAN FREED: Good morning, everybody. It
4	is 9:02 a.m. And I'm going to call the meeting of the Public
5	Employees' Benefits Program Board to order. And I will ask
6	PEBP staff to call the roll.
7	MS. LUNZ: Thank you.
8	Laura Freed?
9	CHAIRWOMAN FREED: Here.
10	MS. LUNZ: Linda Fox?
11	VICE CHAIR FOX: Here.
12	MS. LUNZ: Betsy Aiello?
13	MEMBER AIELLO: Here.
14	MS. LUNZ: Jim Barnes?
15	MEMBER BARNES: Here.
16	MS. LUNZ: April Caughron?
17	MEMBER CAUGHRON: Here.
18	MS. LUNZ: Michelle Kelley?
19	MEMBER KELLEY: Here.
20	CHAIRWOMAN FREED: Leslie Bittleston.
21	MEMBER BITTLESTON: Here.
22	MS. LUNZ: Jennifer McClendon?
23	MEMBER MCCLENDON: Here.
24	MS. LUNZ: Tom Verducci? CAPITOL REPORTERS (775)882-5322

```
MEMBER VERDUCCI: Here.
1
2
                MS. LUNZ:
                           Thank you. We have a quorum.
3
                CHAIRWOMAN FREED: Thank you very much.
                All right. Agenda Item Two, public comment.
4
5
    will limit public commenters to three minutes per. And with
    that I will turn it over once again to PEBP staff.
6
7
                MR. HOPKINS: Okay. One minute, Madam Chair. As
    a reminder, Zoom is used for public only. This meeting is
8
9
    streaming live on YouTube. If want to just listen to the
    PEBP Board meeting, the YouTube link is located on the
10
11
    agenda.
12
                For those who have joined for public comment,
    your name and the last four digits of your phone number will
13
    be announced. You'll be advised you've been unmuted.
14
15
                Okay. So, Kent Ervin or Ervin, you have
16
    permission to talk. Please unmute your mic.
17
                MR. ERVIN: There we go. Kent Ervin, K-e-n-t
18
    E-r-v-i-n. Can you hear me now?
19
                MR. HOPKINS: Yes, we can, sir. Thank you so
20
    much.
                MR. ERVIN: Kent Ervin, State President of the
21
22
    Nevada Faculty Alliance, the Independent Association of
23
    Faculty of Nevada's Public Colleges and Universities.
24
    work to empower faculty members to be fully engaged in our
                  CAPITOL REPORTERS (775)882-5322
```

mission to help students succeed.

Full engagement means having a health care package that keeps employees and their families healthy and free from catastrophic expenses. A strong benefits program is essential to recruiting and obtaining the highest quality employees but with recent and longer term cuts to our benefits PEBP is not meeting that requirement.

PEBP is now a half year into the establishment of the new low deductible co-pay option. It's time to start evaluating whether it is accomplishing its goal as a middle plan option between the high deductible plan and the EPO plan.

While the utilization report in Agenda Item 4.2.2 includes lots of interesting details, it does not clearly lay out the metrics that would show how much each of the three self-funded plans are working. For example, what are the medical and pharmacy payouts for employees for each plan both by PEBP and by the participants. What are the differences in utilization and access to medical treatment for each plan. Are they priced fairly?

In Item Seven you will be awarding the contract for the Pharmacy Benefits Manager. The Board information was cause as one of the determining factors for staying with Express Scripts. How much will be saved by participants CAPITOL REPORTERS (775)882-5322

versus saved by the program. And how would those savings be converted into better benefits for state employees.

We are concerned that savings will just accrue to excess reserves which increased again to 47,000,000 as of the beginning of FY2022, not including the additional 8.6 million in CARES Act reimbursements.

Excessive excess reserves could again be swept by the legislature. Please make sure that cost savings are translated into better benefits or lower premiums for employees. Thank you.

MR. HOPKINS: Okay. Thank you, Mr. Ervin.

12 Kurt Kemp, you have now -- you have permission to 13 talk. Please unmute your mic.

MR. KEMP: No comment.

MR. HOPKINS: Thank you so much.

Matthew Parker, you now have permission to speak.

Please unmute your mic.

MR. PARKER: Can everyone hear me?

MR. HOPKINS: Yes, we can. You may speak.

MR. PARKER: Okay, great. Ladies and gentlemen of the Board, I am an unvaccinated state employee who will be subject to the vaccination surcharge going into effect this July. In the last two years I've weathered furloughs and seen inflation effect my take-home pay. And now I face a CAPITOL REPORTERS (775)882-5322

surcharge.

I'm here to tell you that I and many others like me can't afford this and my family cannot afford this. I read the December 2nd agenda to better understand this Board's reasoning for the surcharge. And what I found was that a lot hinged on the Biden's administration mandate which was shot down by the Supreme Court on January 13th. A lot of what was written here also hinges on the misconception of the vaccine is the only way out of this pandemic which is a good oversimplification of what is — that is not reflective of the realities of this pandemic.

Because what I didn't see in the agenda was no consideration of natural immunity. No mention that COVID hospitalization hinges more on age and comorbidities than it does on vaccination status. No mention of the flu vaccinated can also transmit COVID and be hospitalized for it.

Will you also be surcharging fully vaccinated employees due to their age and health? What if a fully vaccinated person is hospitalized for COVID, will they then have to pay a surcharge? It shouldn't be a surprise to anyone here that the State is struggling with recruitment and retention. Morale in the workforce is very low. This surcharge will worsen recruitment, worsen retention. It's already corroding morale.

CAPITOL REPORTERS (775)882-5322

Right now around the country public agencies that have used force of methods of punishment on their unvaccinated employees are now facing staff shortages. The State of Washington for example lost 151 winter operation workers who did not want to comply with the state's vaccine mandate which has tripled their ability to keep roads open and safe for travelers this winter.

These are the consequences of these strategies that punish employees who remain unvaccinated. They leave. I can tell you right now that many of the unvaccinated I work with are actively looking for other jobs right now. Others may be fortunate to get on another insurance plan. Those who can't will likely fall back into a corner and get vaccinated not because they want to but because they have no other choice. This will leave them bitter, disgruntled and feel victimized by their employer.

Are these the outcomes the Board wants? Do you want this to be a part of your legacy on this Board? I have no doubt the surcharge will be very effective in getting vaccination rates up. But it will come at a heavy cost. In your effort to fix one problem you'll be creating many more in its place.

As this Board has said, the situation is fluid.

And since January 13th the number of private corporations and CAPITOL REPORTERS (775)882-5322

```
public agencies dropping their mandates and surcharges has
1
2
    grown everyday. So it is with respect that I strongly
3
    encourage this Board to do the same. It's the morally right
4
    thing to do for the people of the great State of Nevada.
5
    Thank you for your time and consideration.
                MR. HOPKINS: Thank you so much for your comment.
6
7

           Caller with the last four 1100, please press star six
    talk.
    on your phone. You have permission to speak. Okay. We'll
10
11
    come back to you.
12
                Would the caller of the last four digits of 7832,
13
    will you please press star six. You have permission to
14
    speak.
15
                MS. LAIRD:
                            Thank you. Can you hear me okay?
16
                MR. HOPKINS: Yes, we can.
                MS. LAIRD: Thank you. Good morning, Chair Freed
17
    and fellow Board Members, and also, Executive Officer Rich
18
19
    and her staff. My name for the record is Terri Laird,
20
    spelled T-e-r-r-i L-a-i-r-d, the executive director at the
    Retired Public Employees of Nevada, RPEN. We were formed in
21
22
    1976 with the sole purpose of protecting the pension and
23
    health care benefits earned by all public employees.
                We currently have nearly 8,000 dues paying
24
```

CAPITOL REPORTERS (775)882-5322

members, many of whom are retired and on the PEBP Medicare Exchange. Although, we also represent some active members who are participants in PEBP.

In December I did express our concern about the pending COVID surcharge said to take effect in July for those non vaccinated public PEBP participants. And we see the Board has several letters from those participants for your consideration today who were not heard in December when this surcharge was approved.

We do recognize the need for PEBP to cover the testing costs these non vaccinated employees incur and understand the seriousness of the pandemic. However, more fees on top of already high health care premiums and deductibles could prove a problem for some of the lower paid employees in your program. Affordable health care seems to get less and less affordable as the years go by.

We are also still hopeful PEBP can benefit from some of the millions in federal funding made available to states last year and hope to see some of those benefits cut last year at PEBP restored with some of that aid.

It looks like the pandemic is not over yet. So we hope the Governor who informed PEBP they would not get any additional funds might perhaps change his decision in the coming months.

CAPITOL REPORTERS (775)882-5322

A last concern of ours relates to the health reimbursement arrangement, HRA's for some retirees after we got word earlier this month that some of our members were having concerns with PEBP's enrollment platform. We do understand from Ms. Rich it's a glitch in the system but we hope that can be taken care of before it goes on too much longer. Until then we do thank the PEBP Board and staff for your difficult work during these trying months. Thank you.

MR. HOPKINS: Thank you so much.

Will the caller with the last four digits of 8673 please press star six on your phone. You do have permission to speak.

MS. MAYLATH: Good morning. Thank you for the opportunity to be able to speak to you again. For the record my name is Brooke Maylath. I would like to, again, call your attention to the discriminatory language in some of the plan documents, specifically the PEBP Consumer Driven Health Plan which mandates that precertification requirement applies to medical treatment related to hormone therapy and prescription drug therapy by the Pharmacy Benefit Manager for treating gender dysphoria. This is really the same kind of issue that menopausal women have in being able to get hormone replacement therapy to be able to treat the symptoms that come about during menopause.

CAPITOL REPORTERS (775)882-5322

They go in. The doctor, you know, makes the diagnosis. The doctor prescribes the medicine. There's no precertification that is necessary. Whether you're a trans man or a trans woman being able to have the dependence on an outside agency that's never laid eyes on you for a diagnosis and to have to be able to jump through those hoops because of administrative barriers is, in fact, discriminatory. This is an easy fix that can be made immediately in a self-funded plan and that's what we've been asking for for months.

The plan also goes on to say that the utilization management company may refer to guidelines published by organizations such as the World Professional Associations for Transgender Health, also known as WPAT and a few other insurance companies.

I will tell you right now that the WPAT standards and the Aetna standards are for the ability for prescribers to write those prescriptions without having to go through a utilization manager or a psychological review, that it is a self-informed -- informed consent model. And this plan should reflect that kind of model and those professional organizations have already adopted and as already exists in the other self-funded plans, you know, presented by PEBP.

This plan needs to be changed because it is, in fact, discriminatory. And we don't want to be putting the CAPITOL REPORTERS (775)882-5322

state in a place where a lawsuit can challenge that kind of language and you can and will be held liable and have to pay not just the cost of the prescription but additional costs and penalties, lawyers fees, et cetera.

So please just do the right thing and eliminate this as quickly as possible. It's a simple fix and it's one that has to be done in order to meet the requirements of the law. So thank you for your time. And I look forward to action happening and not just silence. Thank you.

MR. HOPKINS: Thank you so much. It looks like we don't have anymore public comment on the line currently. For those who had technical issues and didn't get a chance to comment we will have another public comment session at the end of this meeting.

Madam Chair, the public comment has been completed.

CHAIRWOMAN FREED: Okay. Disclosure for applicable Board meeting agenda items and I'll toss it over to the Chief Deputy Attorney General, Ms. Briggs.

MS. BRIGGS: Thank you, Madam Chair. This is

Michelle Briggs for the record. This agenda item is to allow

me to make a disclosure regarding conflicts of interest on

behalf of the Board Members who are eligible for PEBP

benefits pursuant to NRS 281A.420.

CAPITOL REPORTERS (775)882-5322

On behalf the Board Members who are eligible for 1 PEBP benefits or whose family members are eligible for PEBP 2 benefits I offer this disclosure that they will be voting on 4 those items that may affect the benefits available to them or their family members. The law does not require abstention 5 from voting merely because the Board Member or their family 6 7 member is eligible for PEBP benefits. At this time I invite any member of the Board who 8 9 has any other additional disclosures to make them now. CHAIRWOMAN FREED: Thank you, Ms. Briggs. And I 10 had no disclosures. I just want to say how much I appreciate 11 12 the cat tail in the background. MS. BRIGGS: He does that. 13 CHAIRWOMAN FREED: They have a tendency to. 14 They 15 crash. All right. So with that, let's go on to Agenda 16 Item Four, the consent agenda. All of these are action 17 items. As you know, Board Members, and as is our habit, I 18 19 will ask you if you would like to pull any of these for discussion. 20 21 This is Betsy. I have a couple MEMBER AIELLO: 22 of questions on 4.6. 23 CHAIRWOMAN FREED: All right. 4.6.

CAPITOL REPORTERS (775)882-5322

Board Members, any others you would like to pull?

MEMBER VERDUCCI: Yes. Tom Verducci for the
1
2
             I would like to pull 4.2.1.
3
                CHAIRWOMAN FREED: Okay.
4
                MEMBER VERDUCCI:
                                   4.3.5.
5
                CHAIRWOMAN FREED: 4.3.5, okay.
                MEMBER VERDUCCI:
                                   4.3.6.
6
7
                CHAIRWOMAN FREED: All right.
8
                MEMBER VERDUCCI: And lastly 4.5.
9
                CHAIRWOMAN FREED: Oh, good, me too, on 4.5.
                Okay. Any others? Okay. Hearing none, I'll
10
11
    accept a motion to approve everything in Item Four save for
12
    4.2.1, 4.3.5, 4.3.6 and 4.5 and 4.6 we'll hold those for
    discussion in a separate motion.
13
                MR. GARRISON: So real quick. My name is Dylan
14
15
    Garrison.
               I am the external auditor, the manager on 4.6, the
    Clifton Larson Allen audited financial statements. I just
16
    want to clarify that the statements we have today, I don't
17
    know if everyone has a copy of them, but they are draft of
18
19
    financial statements. So they still remain unaudited at this
    point in time. We're still working through required auditing
20
21
    procedures and going through that --
22
                CHAIRWOMAN FREED: Okay.
23
                MR. GARRISON: -- review process over those.
                                                               So
    I just want to make sure that's clearly identified that these
24
                  CAPITOL REPORTERS (775)882-5322
```

are still unaudited at this point, and we will be presenting the final audited financial statements along with the results of the audit at the March meeting. Thank you.

CHAIRWOMAN FREED: Thank you, Mr. Garrison.

Executive Officer Rich, with that in mind, do we want to shelve 4.6 until March or is it important that you have us accept this draft report?

MS. RICH: So we can shelve it. The reason that this was submitted or included in this packet is because these are -- these are typically included in the November packet.

CHAIRWOMAN FREED: Okay.

MS. RICH: They are presented to legislative committees.

CHAIRWOMAN FREED: Okay.

MS. RICH: And so before that gets presented publicly anywhere else we wanted to make sure that the Board had an opportunity to at least review it. So we will definitely be bringing the final results back in March, but we didn't want to -- we wanted the Board to at least be able to preview these before they became public elsewhere.

CHAIRWOMAN FREED: Right. Understood. It has to go to the interim retirement benefits committee. So I appreciate the consideration shown to the Board in giving it CAPITOL REPORTERS (775)882-5322

```
to us first even if it was a draft.
1
2
                All right. Okay. Then that's fine. I'll leave
3
    it for now. So anyway, back to the motion for everything on
4
    Item Four except what I previously called out. Do I have a
5
    motion for approval?
                MEMBER BITTLESTON: This is Leslie, so moved.
6
7
                CHAIRWOMAN FREED:
                                   Thank you.
                Do I have a second?
8
9
                MEMBER CAUGHRON: This is April. Second.
10
                CHAIRWOMAN FREED: Thank you. All in favor say
11
    aye.
12
                (The vote was unanimously in favor of the
13
    motion.)
14
                CHAIRWOMAN FREED: Any opposed say no.
15
    The motion carries. All right. With that, let's go to
    4.2.1, the budget report.
16
                MEMBER VERDUCCI: Yes, Tom Verducci for the
17
             In reading through the report I just wanted to see
18
19
    if we could address the differential cash that was available.
    I read 37,000,000. I heard in public testimony -- public
20
    comment that 47,000,000, and I just want to see if we can get

5
    26,000,000 of that for future plan years benefit enrichment.
    So 38 minus 26 leaves us about 12,000,000 at this point,
6
7
    knowing that that's always fluid, is that correct, Ms. Eaton
8
    or correct enough?
9
                MS. EATON:
                            Cari Eaton for the record. That is
    correct enough at this point in time.
10
11
                CHAIRWOMAN FREED: All right. Thank you.
12
                Mr. Verducci, any other questions about the
    budget report?
13
                                       That was the only question
14
                MEMBER VERDUCCI: No.
15
    I had.
            Thank you very much.
                CHAIRWOMAN FREED: All right. You're welcome.
16
17
                4.3.5, again, Mr. Verducci I believe you had
    questions about this.
18
19
                MEMBER VERDUCCI: You know, I sure do.
20
    that there's been a performance guarantee that was missed on
    4.3.5. You know, I also noticed on 4.5, I know we're not
21
22
    there yet, but that had audit findings relating to Willis
```

CAPITOL REPORTERS (775)882-5322

Maybe we can

Towers Watson guarantee. And I'm not sure if we have a

representative from Willis Towers Watson here.

23

24

- perhaps have a discussion on the performance guarantee and, 1 2 you know, why those measures are being missed or if indeed they are being missed. 4 MR. GARCIA: Hi, Mr. Verducci. This is Chris 5 Garcia with Towers Watson. I'm here for you. MEMBER VERDUCCI: Oh, hi, Chris. 6 7 MR. GARCIA: So going to the quarterly report, 8 which measure are you referring to? I'm looking at page five 9 of that report or I'm sorry, page six, and I'm not seeing that there was a missed measure for that quarter. 10 11 MEMBER VERDUCCI: Okay. So going to page number 12 four, page number four, under the category of benefitted administration customer service abandonment rate, and I know 13 the commitment is less than five percent. When I tie it into 14 15 the audit report at 4.5 it looks like the findings were closer to nine percent. And it, you know, the performance 16 guarantee which, you know, I think is either yes or no, the 17 18 response is NA. I don't know if that's not applicable or not 19 available but --20 MR. GARCIA: Sure. MEMBER VERDUCCI: -- that's the item I wanted to 21
- MR. GARCIA: Thank you. I appreciate that
 clarity. Again, Chris Garcia for the record. So that is
 CAPITOL REPORTERS (775)882-5322

22

discuss.

- 1 listed as NA because that is not a quarterly measure. That
- 2 is an annual measure. So this report is providing
- 3 information on a quarterly basis. The -- and you're correct,
- 4 the audit report from Claims Technologies, that would be
- 5 where we would capture the annual measure. So hopefully that
- 6 explains why that's listed as NA in the quarterly report.
- 7 And then if we're ready we can go over and look
- 8 at the Claims Technology audit report if you would like. I
- 9 don't know if we have to close out this particular item first
- 10 before we can move on to the next.
- CHAIRWOMAN FREED: We don't necessarily, but I
- 12 think I would prefer to go in numeric order. So if you would
- 13 hold for a second, Mr. Garcia, I'll go to 4.3.6 unless
- 14 Mr. Verducci has more questions on 4.3.5.
- 15 MEMBER VERDUCCI: No. Thank you very much,
- 16 Chair.
- 17 CHAIRWOMAN FREED: Okay. All right. Then I'm
- 18 going to throw it back to you for 4.3.6, Aetna Signature
- 19 Administrators.
- 20 MS. LUNZ: Madame Chair, Erin Keller from Aetna
- 21 was having some technical difficulties and we're trying to
- 22 get her in.
- CHAIRWOMAN FREED: Oh, okay. Well, then I take
- 24 it back. Mr. Garcia, you're up again, 4.5. In fact, I think CAPITOL REPORTERS (775)882-5322

I'll start this one off. Hold on. Let me get to the right

page in my packet. So -- so Claim Technologies has, you

know, on page nine of its audit, it's got some

recommendations. It asks Via Benefits to, you know, specify

the reason for overpayments, train its examiners to combat

claims processing errors, track turnaround time, all these

things.

And then in the Willis Towers Watson response it was curiously devoid of responses to those recommendations. It just talks about the, more or like the procedural way that, you know, CTI did the audit. So I would like to hear from Willis Towers Watson what its reaction to the recommendations are. And I would also like to hear about, hold on, find the page, they talk about assessing a penalty of, on page three of the audit, claims processing payment precision annual review, it was not met, and the penalty is \$10,000. So would Willis please respond to that.

MR. GARCIA: Absolutely. Again, Chris Garcia for the record. So to respond to the first part of your question regarding the recommendations from Claims Technologies and why the response letter in the report doesn't address that. This response letter was provided to a draft version of the report that our auditing team had received. In that draft version there were no recommendations listed in there. So CAPITOL REPORTERS (775)882-5322

- that's why the letter itself that Kara Smouse from our claims auditing team did not provide any additional information related to those recommendations. But I'm happy to respond to many of those recommendation during this call if you would like to.
- CHAIRWOMAN FREED: Well, actually what I would
 like is if that was a draft, now that this is final, will we
 be getting another response letter from Willis directly
 responding to the recommendations? And you can preview that
 for me if you want.
 - MR. GARCIA: We certainly can. That was not a request that we received. We did not get the final draft or final report until it was made public.
- 14 CHAIRWOMAN FREED: Okay.

11

12

13

- MR. GARCIA: Through PEBP posting it.
- 16 CHAIRWOMAN FREED: Through the packet.
- MR. GARCIA: Correct. So when we requested the report from Claims Technologies, I was advised by our auditing team that we were told we would need to get it from PEBP.
- 21 CHAIRWOMAN FREED: Oh, all right.
- MR. GARCIA: So we're happy to provide a formal response or I can go ahead and talk through that information if you prefer.

CAPITOL REPORTERS (775)882-5322

CHAIRWOMAN FREED: Actually I prefer both. I would like --

MR. GARCIA: Okay, great. I'm happy to do that. So looking at the recommendations, the first recommendation is regarding the overpayment report and the request for additional details to be added to that report. Currently the report that we have available does identify the type of overpayment that was created. The two categories are, we'll be calling negative account balance overpayment. And the second one is a claims overpayment and they are very generic. And I understand how that can be a little concerning from an auditing perspective or from an auditor perspective.

To simplify this as much as possible, a negative account balance overpayment is typically tied to a reversal of funding that was provided to an account. For example, if we receive a late notification that somebody has passed away we will, because PEBP provides monthly allocations we will go back and remove any of those monthly allocations that the person should not have received during that time period from when, you know, before we were notified that they were passed away. If we remove those allocations and there was claims paid from those funds that would potentially cause an overpayment to be created on the account. That's the first category.

CAPITOL REPORTERS (775)882-5322

The second category, as I mentioned, is claims overpayment. Those are typically going to be tied to claims that were originally approved and then later determined to be ineligible expense. A common example of that would be a claim that was approved and then later identified as a duplicate claim. And we do see that every once in a while, in particular with premium claims that we can receive.

So while our current overpayment report does not provide the more detailed information on why specific overpayment occurred on account, you know, we would have to do manual research on each individual claim item to identify the specific reason why a claim isn't currently in overpayment.

I do want to advise PEBP that we are working on reviewing improvements of the reports that we make available to clients through what we call our benefit view site which is where the overpayment report is housed. There's actually, coincidentally there's a meeting later today that's happening regarding those types of improvements. One of those reports under review overpayment report.

However, I'm currently unable to confirm that additional detail can be provided to the report at this time. It has to be fully vetted and reviewed. This is something that's been building up not specifically based off of this CAPITOL REPORTERS (775)882-5322

request but actually over the last year as we received
feedback from other clients related to the reports that we
have available, specifically to the reports available on our
benefit review site tied to the HRA.

So certainly something we want to look at and
make improvements on, but it's got to be reviewed to see how

we can add additional detail as to why the overpayment was

9 Did you have any questions on any of that information?

11 CHAIRWOMAN FREED: No

created on the account.

7

8

15

16

17

18

19

20

21

2.2

23

24

Mr. Verducci, I see you're unmuted. Did you have questions about that or were your questions different than mine?

MEMBER VERDUCCI: I believe they are probably a little different.

CHAIRWOMAN FREED: Okay. Go ahead.

MEMBER VERDUCCI: I wanted to go ahead and ask about the number of the HRA accounts that I read. 13,462 accounts are out there but 7,315 don't have any balance. I'm just trying to account for the over 7,000 accounts with no balance.

MR. GARCIA: Sure.

MEMBER VERDUCCI: It seems like a billing must be CAPITOL REPORTERS (775)882-5322

there.

MR. GARCIA: And that's actually a really good thing, to be honest with you, Mr. Verducci. Chris Garcia for the record. So PEBP provides monthly allocations. We're paying out claims on a daily basis. For most clients or most participants they want to utilize as much as of their HRA as possible. So as we have claims come in and we have new allocations added each month we will process those allocations, those balances against the claims that are being submitted. There's different ways that participants can submit claims against their account.

So as we pay out those claims it exhausts the balance, and so we will use up as much of that funding as possible to, so that the participant can receive reimbursement for their eligible expenses they submit against their accounts.

So we would honestly prefer to see that be a higher amount on a regular basis, more than the 7,000 just to show that participants are utilizing as much of their HRA as possible, in particular because as you may recall, last year the Board implemented a cap of \$8,000 on the HRA. So at the end of May of each year, any amount over \$8,000 is removed from the account and is no longer available to the retiree.

So we do want to see as many of those retirees CAPITOL REPORTERS (775)882-5322

use as much of that, you know, as much of those allocations in the balance as possible so they don't go over the \$8,000 and lose their funding.

MEMBER VERDUCCI: I see. And thank you, Chris. So those would be zero balance accounts. Accounts that did have balances at one point but they were closed out. And is that something that is just held on the books indefinitely going forward, even if an account was closed out perhaps several years ago?

MR. GARCIA: They don't close out unless the person either loses their eligibility or they become deceased. So those are really the only times that an account is quote unquote closed. When we mean they have a zero balance it means at the end of that reporting period the person, the account had exhausted their funding. But then at the start of the next month they would have additional funding added to the account.

So to kind of give you a simple example, let's say a participant is receiving \$260 per month which is the most they can receive based off of receiving 20 plus years of service at \$13 per year. If they receive the \$260 per month and then they have premium claims for their Medigap and maybe their Medicare part B premium, dental premium, et cetera that exceeds the 260 dollar amount, we will load the \$260 to their CAPITOL REPORTERS (775)882-5322

```
HRA, make it available to them and then pay out claims as
1
2
    they come in. And so by the end of the month they have
    already exhausted that $260 as we've reimbursed them for
    their expenses. So every month they are exhausting their
5
    funding but they are getting new funding the following month.
    That's the most common scenario that we'll see that applies
6
7
    to those 7,000 accounts that we mentioned.
                MEMBER VERDUCCI: Thank you for the detailed
8
9
    explanations. I appreciate it very much.
                MR. GARCIA: You're welcome. Again, Chris Garcia
10
11
    for the record. Ms. Freed, did you want me to continue on
12
    with the questions -- with the recommendation?
                CHAIRWOMAN FREED: Yes, please.
13
14
                MR. GARCIA: And responses.
15
                CHAIRWOMAN FREED: We don't need to spend too
    much time.
16
17
                MR. GARCIA:
                             Sure.
                CHAIRWOMAN FREED: And I don't want to put you on
18
19
    the spot for like a half an hour. So what I think I'm going
20
    to do is have you do it briefly.
21
                MR. GARCIA:
                             Sure.
```

CHAIRWOMAN FREED: And then ask you to formally respond whether it's, you know, from you or from Cara Smouse or whomever in your organization needs to respond to CTI and CAPITOL REPORTERS (775)882-5322

22

23

24

us officially.

MR. GARCIA: Absolutely. And I will go as briefly as I can. So Item Number Two in the recommendations was regarding how Via Benefits and Life Works needs to work together to determine how to best update eligibility in a timely manner.

So just to confirm we are now working with Benefit Focus as of 2022. And one of the things that we've been focused on working Benefit Focus as your data eligibility vendor is improving the timing of the eligibility files that we will be receiving. We're still working on that. But our goal is to expedite that timing and improve it compared to what we were receiving, the timing that we were receiving files from Life Works, your prior data eligibility vendor.

So we are excited to be working with Benefit Focus and hope that the improved timing of those files will minimize the number of late notification that we receive, especially related to a deceased participant.

I do want to add one item of note, that we are currently working on a tool that will be available to clients as well as authorized third party eligibility administrators that would allow the client or that third party administrator to actually access our system and their participant accounts CAPITOL REPORTERS (775)882-5322

and manually update information in that account.

We can see that being used to help correct an account or potentially I can see it being used to update, adjust that as rather than waiting on the next file that would have to be sent over. That tool is called One View and we plan on rolling it out by the end of this year. So I'll share that information with PEBP as it becomes available as well as with Benefit Focus. But one thing I wanted to bring to your attention is that is something that could come into play here. Moving on -- do you have any questions related to that?

Okay. Moving on to Item Three, which is regarding how Via Benefits should coach our examiners on the claim they are processing. Our claims manager did confirm with me that they do coach processors on all identified errors. And they actually did share the report that Claims Technologies has provided with the processing team. So that item has been addressed.

The next item is that Via Benefits should develop a process attract what we call claims turnaround time which is how quickly we process a claim from when it is received.

Again, our claims manager has confirmed that we do a process to track turnaround time. They have several controls to monitor aging inventory on a daily and weekly basis through CAPITOL REPORTERS (775)882-5322

reporting and dashboards, and we receive reports monthly to determine what we call service level agreements on a quarterly basis. So usually SLA's or service level agreements are tied to a quarter. So we use those reports, those monthly reports to do that.

I think what Claims Technologies may be asking for is like a turnaround time on demand report, which is not a report we have in place because the previous controls that were mentioned would eliminate the need for that type of report. Again, we'll provide more detail in the written response.

The Item Five is an item related to performance guarantees, metrics or service level agreements and being able to measure those outside of the -- to allow for outside validation. I actually had some questions on this one. I don't think we have a response ready. We wanted to ask Claims Technologies for additional clarification on this item and then we would be able to provide a response. So we can certainly do that.

And then the last item where it says PEBP should verify that misperformance goals of having creditor back.

Unfortunately I cannot provide a response there. We would need PEBP to respond to that item or provide information.

CHAIRWOMAN FREED: Okay, great. CAPITOL REPORTERS (775)882-5322

```
MR. GARCIA: Any other questions that you might
1
2
    have?
3
                CHAIRWOMAN FREED: No, sir. None from me.
4
                MR. GARCIA: Okay.
5
                CHAIRWOMAN FREED: I think with that we can move
6
    on.
7
                MS. RICH: Can I just add something to that
    really quick. You know, first of all, this was as the Board
8
9
    is aware, we -- we switched auditors and we have a long time
    auditor I think. And so we had after entire leads switched
10
11
    to a new auditor. This was the first audit that we've had so
12
    this is -- can you hear me?
                MR. HOPKINS: We can, Laura.
                                               It is just very
13
    muffled. There's like some feedback.
14
15
                CHAIRWOMAN FREED: There is a lot of feedback on
16
    yours.
            It's weird.
17
                MS. RICH: Can you hear me now better?
                CHAIRWOMAN FREED:
18
                                   No.
19
                MS. RICH:
                           Let me see what I can do here.
20
                CHAIRWOMAN FREED: Okay, everybody, thank you for
    your patience. Board Members, vendors, people listening on
21
22
    the internet, we've had some audio difficulties with
    Executive Officer Rich. So while they get that sorted out I
23
24
    think we will move on to 4.6. I believe Member Aiello wanted
                  CAPITOL REPORTERS (775)882-5322
```

to ask about this one.

MEMBER AIELLO: Yes, it was me that asked to pull this one. I think it's not so much about the audit report but a couple of things within it that I don't quite understand, and maybe we've seen them before and it was in a different presentation so it made sense.

But on the fund 625, on page four, it talks about bank overdraft. And later in the report I read that there are some outstanding checks that made sense to me that that's part of the overdraft when things have been paid and need to be brought back. But it was a smaller amount so I'm just wondering what bank overdraft is. And I don't know if that's, someone can answer that for me but that -- this report brought that up.

CHAIRWOMAN FREED: I will ask the auditors to ring in if they can answer that question for you.

MEMBER AIELLO: I can go through my other questions if they are having trouble getting on while they are working maybe.

CHAIRWOMAN FREED: We are just riddled with technology issues today. I'm not even seeing the auditor on and he was here previously.

MS. EATON: This is Cari Eaton for the record. I can take a stab at it.

MEMBER AIELLO: 1 Okay. 2 MS. EATON: Maybe I am wrong. 3 MEMBER AIELLO: I just don't, in my own accounts 4 I wouldn't want to see bank overdraft. MS. EATON: And I don't know if that is what they 5 6 are calling our stale dated checks or if that is something 7 different. But I'm not sure if you might also be seeing our collections because there's a collections amount that we have 8 9 participants who are overdue on payments and we send them to collections and part of that becomes uncollectible. And I 10 11 don't remember where in the report they go over that. But I 12 know they go over both of those. MEMBER AIELLO: Okay. 13 14 MS. EATON: That's the area that was coming to 15 mind. MEMBER AIELLO: Yeah, because it was over 16 \$2,000,000 so it just seemed like a lot. On page five, my 17 question was just in the transfer section, it says transfers 18 19 Where do transfers come from? Because in 2020 we transferred in 400,000. And then we in '21 we transferred in 20 over 9,000,000. So I was just curious where that money came 21 22 from or that's another question I had, just trying to understand. 23 24 CHAIRWOMAN FREED: Okay. So thank you, Betsy.

CAPITOL REPORTERS (775)882-5322

So I think what we're going to do is take a break because we seem to have tech problems and we're missing an auditor somewhere. So, Board Members, vendors and the public, I apologize this is happening, but I think we are going to pause the meeting for about -- until about 10:00 o'clock so Executive Officer Rich can get her mic back to where it needs to be and we can maybe find some people to answer these questions. So with that, everybody take five and get a beverage or something.

(Whereupon, a brief recess was taken.)

CHAIRWOMAN FREED: It's 10:00 a.m. I will call the meeting back to order. And we were on Item 4.6 which is the financial audits of the two funds that PEBP has. Member Aiello, we have the Clifton Larson Allen auditor on. So if you would like to pose your questions once again we'll let Mr. Garrison answer them if he can.

MEMBER AIELLO: Thank you. For the record, this is Betsy Aiello. And, Mr. Garrison, I was just trying to understand what I was reading. And on page four of your 6-25 audit report it indicated under current liabilities, bank overdraft. And I was trying to understand what that was.

CHAIRWOMAN FREED: Mr. Garrison, before you testify, if you would identify yourself for the record.

MR. GARRISON: Yeah. My name is Dylan Garrison. CAPITOL REPORTERS (775)882-5322

And, again, I apologize. I thought you didn't have questions on these documents or else I wouldn't have jumped off. I apologize on that one.

So the bank overdraft, what that is it's is three checking accounts that are helping that third party. So really it's those outstanding overdrafts where those checks get cut to the claim participants that are filing the claim with the State of Nevada, you know, the PEBP funds are liable for those claim payments up to six years. So those are the three checking accounts helping the third party that are constantly getting cleared out. And so those bank overdrafts, if you will, are still those outstanding claim payments related to those three zero balance accounts administered through a third party.

MEMBER AIELLO: Oh, okay. Thank you. I thought I saw that in a note lower. But I thought I read a different amount than those amounts though.

MR. GARRISON: And that's a great point, Betsy, and you're right. So that footnote was, and I'm assuming you're talking about either number three or number eight probably. But in that batch of what's listed on the basic statements it does contain these amounts that are disclosed but it also just has additional just activity report in that bucket, if you would, for liability.

CAPITOL REPORTERS (775)882-5322

MEMBER AIELLO: Okay. I appreciate that. 1 2 then I just had another question on the next page, on page 3 five. MR. GARRISON: Sure. 5 MEMBER AIELLO: Where do transfers come from because apparently in 2020 we only had to transfer in 6 7 400,000. But this year we had to transfer nine and a half million. 8 9 MR. GARRISON: Yes. So it's kind of, it's a hard picture to see, right, because you're just seeing the two 10 11 funds that we're reporting on versus seeing the whole 12 statewide annual financial report. So those transfers in are coming from the general fund. And so I believe a good 13 portion of that money was related to the federal grant money 14 that came in I believe in terms that transfer of funds 15 because this is a transfer in from the general fund. So this 16 is money that the general fund has transferred into the --17 MEMBER AIELLO: With their bills or --18 19 MR. GARRISON: Correct. And just another item 20 and I don't know if anyone has really noticed it or kind of caught everyone's attention, but you'll notice the operating 21 22 income is a lot lower this year, and the reason that is is 23 because the month of June the state had a subsidy holiday is

24

what it's termed as.

And so what ended up happening is those employers 1 2 that would typically contribute to these two funds that we're 3 looking at here which can be recorded as revenue, that June 4 contribution amount got absorbed by state dollars, like a state subsidy holiday. So really that 2021 column is only 5 reflecting 11 months of revenue because that month of June 6 7 was absorbed by the state as a subsidy holiday that it offered all the employers. So that was another one of the 8 9 biggest -- I'm sorry. Go ahead. MEMBER AIELLO: I'm sorry. I interrupted you. 10 11 But which then was backfilled from the general fund, probably 12 from federal funds but from whatever. MR. GARRISON: Exactly. 13 14 MEMBER AIELLO: That was part of the reason the 15 9,000,000 was maybe needed. 16 MR. GARRISON: Correct. 17 MEMBER AIELLO: I'm assuming, okay. And then I have a question on page six, and this 18 19 one is an easy one. There's only 2020, is that a live 20 report? Is that why there's not 20201? MR. GARRISON: Not at all. That's just because 21 22 these are drafts and we didn't quite get that column updated for this Board meeting. We were kind of pressing the 23 24 deadline working with the finance department and we wanted to CAPITOL REPORTERS (775)882-5322

get drafts available for the state so there should be a 2021 column there for the cash flows for this month. So great point. There will be another column there when you see the final payment.

MEMBER AIELLO: Okay. And I just have a question on the, one question only on the 680 report because my eyes were going a little crazy just trying to figure out what I was reading. But in that also is I'm scrolling to it, sorry, on page four.

MR. GARRISON: Sure.

MEMBER AIELLO: And this is the retiree stuff.

MR. GARRISON: Uh-huh.

MEMBER AIELLO: And I'm wondering why, let's see what I wrote. There's such a decrease in assets from 6,000,000 to 2,000,000. What would -- or maybe you don't -- because we've got a whole bunch due from other funds that they're blank this year or investment at fair value, yeah.

MR. GARRISON: Yeah. No. Great questions. So there's a couple of circumstances there that are taking place. So the investments at fair value, that was an investment account that last year had a balance that was essentially swept in March of 2021. So those investments were moved to another fund at the state level so that's why that has been decreased. So it's essentially removed from CAPITOL REPORTERS (775)882-5322

fund 680 and then the due from component units was related to NSHE, the Higher Education and so that kind of ties into the June holiday amount. So I think in the past the due from component units related to June retiree contributions from NSHE. And so with this year being a state holiday for the month of June and that getting absorbed in the general fund we didn't have revenue or receivable to report related to the component unit at the statewide level and that's why that went from 1.4 million to zero this year just because of that state subsidy holiday was very unique but because there was no activity for the month of June there was no receivable to put on the books for that June amount.

CHAIRWOMAN FREED: Okay. Wait a second. This is Laura Freed. Mr. Garrison, I want to clarify something.

MR. GARRISON: Yeah.

CHAIRWOMAN FREED: Betsy asked earlier about the transfer of 408,891 in 2020 as compared to 9,467,584 in transfers in. You mentioned they were from the general fund. That would be true in 2020 because that was a transfer that was general fund to support the non-state retirees remediation budget.

MR. GARRISON: Uh-huh.

CHAIRWOMAN FREED: But that law expired by

limitation. So the transfers in from 2021 I believe would be CAPITOL REPORTERS (775)882-5322

- coronavirus relief fund for claims offset, not general fund.

 This is not a fund that gets direct general fund
- 3 appropriations.
- MR. GARRISON: And I'm sorry. Let me clarify my
 words. I was just meaning that I think it came from the
 general fund because the grant funding was initially recorded
 the general fund so this is just a transfer.
- 8 CHAIRWOMAN FREED: Oh, good. We're talking about 9 fund accounting.
- MR. GARRISON: Yeah. Yeah. Yes. Again, my
 apologies. I'm like mixing in my terms with may be different
 terms that you guys will be using. But you're 100 percent
 correct, Laura, that's exactly what it related to.
- 14 CHAIRWOMAN FREED: Okay. Thank you.
- MEMBER AIELLO: And then on this same page then,
 obviously our net position this year is almost 10,000,000
- 17 negative. And that just means we drop that much with money
- or is this fund like in a negative position or?
- MR. GARRISON: Yes, I think if you go to page
- 20 five you'll see last year it was like at a negative 5.6.
- 21 MEMBER AIELLO: Yeah.
- MR. GARRISON: That position. And now it's at
- 23 9.9. So I think really what the reason that is, it's going
- to relate to the June revenue that would typically get CAPITOL REPORTERS (775)882-5322

reported in that contribution bucket up there. So where you see it says contribution and employer contributions you can see how that went down by about the exact number, probably 4.3 million roughly, maybe, just quickly doing back of the neck in math, but that's all related to that June month of contributions that this fund is not collecting revenue for it because the State is going to essentially absorb that cost.

So that's why now we have a kind of a similar change in that position. I can't speak to exactly why the 5.8 million was there in prior year as this was the first year we were the auditors. But that's why we have change this year of negative 4.3, it's because the revenue for the month of June did not come through for that contribution bucket.

MEMBER AIELLO: But so what I'm reading is that in this fund.

MR. GARRISON: Uh-huh.

MEMBER AIELLO: We use more money than gets put in because there was a negative at the end of last year five -- about five and a half million. And the net position beginning of the year was a negative five and a half million. We had money put in. And then we obviously paid more than we had put in, and we were already negative so we're negative even more. So the retiree fund is kind of negative. And CAPITOL REPORTERS (775)882-5322

maybe this is something that PEBP people can help me understand or -- I don't know just from my own accounts, if it was me I would be really upset if my bank looked like that. But that's not the auditor's issue. It's something else I think.

MS. EATON: This is Cari Eaton. I can sort of address that. This is -- so this is our REGI state subsidy funding, and REGI has historically been a little bit unfunded while AGIS is over-funded and we can't combine the two. It's a budgeting legislatively how we set rates issue. So there's no real easy solve for this. And we do need to look into a way to maybe try to lessen this issue. But the way we currently set rates and budget, this issue is going to continue.

MEMBER AIELLO: It's to keep the retirees' rate the same. And I think we might have had a similar conversation last year. And I'll plead that since I'm a retiree maybe that's why it didn't fully stick with me or maybe because I'm looking at it just once a year because some of this is -- but I think as that amount gets higher and higher, it looks a little more concerning too, but I appreciate that. Thank you.

MS. EATON: I 100 percent agree.

MEMBER AIELLO: Thank you for answering my CAPITOL REPORTERS (775)882-5322

questions.

CHAIRWOMAN FREED: Okay. If no one else has any other questions about the draft audit, then I will thank

Mr. Garrison for his testimony.

Welcome to the PEBP Board, Mr. Garrison.

And I will accept a motion to accept Items 4.2.1, 4.3.5, 4.3.6, 4.5 and 4.6.

MEMBER VERDUCCI: Tom Verducci for the record. I just want to clarify on 4.3.6, on the performance guarantee rate. The reason I pulled this item here was the -- I wanted to discuss the pre-pricing accuracy. It appears that there was a performance guarantee that was missed. And I just want to see if I can gain a better understanding of that reporting category.

MS. RICH: We have Erin now.

MS. KELLER: I do. Thank you, Laura. And for the record this is Erin Keller from Aetna Signature

Administrators. And, Board Member Verducci, thank you so much for your question. And thank you all for your patience as I work through the technical issues.

I believe we're looking at a report that has what we would refer to as quarter three. There might not be for the claims repricing accuracy, it says our standard is 97 percent and there may not be anything listed with regard CAPITOL REPORTERS (775)882-5322

```
to the result, if I have the right report that you're looking
 1
 2
    at, Board Member Verducci. And we actually, our repricing
    accuracy amount for that quarter was 99 percent so we did
    exceed that 97 percent.
 5
                MEMBER VERDUCCI: Okay.
                                         That answers the
    question. I was reading 97. It was a very short report with
 6
 7
    three items on here. And it was stated here at 97 which I
    believe is not a pass. But if indeed that is 99 percent it
 8
 9
    appears to be a pass.
                MS. KELLER: Yes, absolutely. So the 97 for the
10
11
    accuracy, the claims turnaround for three days is 97.
12
    the five days is 99. Those are the standard metrics.
                                                            And
13
    then on the right-hand side those are what we have achieved.
                MEMBER VERDUCCI: That answered my question.
14
15
           Thank you very much.
    Okay.
                MS. KELLER: Thank you so much.
16
17
                CHAIRWOMAN FREED: Thank you, Mr. Verducci.
    Thank you, Ms. Keller. I apologize that I completely forgot
18
19
    that we had trouble having Ms. Keller on the line.
20
                Okay. With that, do I have a motion to accept
21
    these remaining items?
22
                MEMBER AIELLO:
                                This is Betsy. I'll move so.
23
                CHAIRWOMAN FREED: Thank you. Do I have a
24
    second?
```

CAPITOL REPORTERS (775)882-5322

```
MEMBER KELLEY: Michelle Kelley for the record.
1
2
    I'll second.
3
                CHAIRWOMAN FREED: Thank you so much. Thank you,
4
    Ms. Fox.
5
                Okay. All in favor say aye. Any opposed say no.
                (The vote was unanimously in favor of the
6
7
    motion.)
8
                CHAIRWOMAN FREED: Okay. Motion carries.
9
    gets us through Agenda Item Four.
                Let's go to Agenda Item Five, Executive Officer
10
11
    Report.
12
                MS. RICH: Sure. For the record Laura Rich.
                                                               So
    the executive officer report is a lot of things COVID.
13
    will start with the COVID update which begins with the
14
15
    emergency declaration. Nothing unexpected here. On
    January 14th the feds did extend the emergency, the national
16
    public health emergency and that was extended through
17
    April 15th through 2022. So that means that, you know,
18
19
    certain benefits are extended as well. That's that cost
20
    sharing for the COVID-19 testing and test related visits as
    well as the vaccine administration.
21
22
                The next one is the OSHA mandate. So the OSHA
23
    mandate was -- it actually made it to the Supreme Court that
24
    emergency temporary standard which imposed testing
                  CAPITOL REPORTERS (775)882-5322
```

requirements on large employers was blocked by the Supreme

Court on January 13th. However, and I know this has come up
in public comment quite a bit. This does not -- this outcome
does not affect the Governor's policy of mandating weekly
testing of unvaccinated employees. So this would not affect
the surcharges or, you know, the cost associated with that,
with the weekly vaccine requirements of unvaccinated
employees for the State.

The next one is the insure mandate. This is kind of a complicated one. It's fairly new. We're still working through a lot of the details. So, you know, I did -- I made our best attempt here to provide some information on where we are today on the insure mandate.

So on January 10th, the departments of health and human services, labor and treasury, they all released guidance outlining a new policy requiring insurers and health plans to cover and -- and/or reimburse covered members for up to eight at-home over-the-counter COVID tests per 30-day period, so that's eight per person per month.

The requirement began on January 15th. So, you know, there wasn't a whole lot of time to get this implemented. Insurers nationwide were scrambling and still are. So this -- this requirement does go through the end of the public health emergency period. So under this policy, CAPITOL REPORTERS (775)882-5322

insurers, they are incentivized. They are incentivized by that 12 dollar cap and by capping it at \$12 because if insurers can't make arrangements with a network of pharmacies that allow members to go to the -- to that pharmacy and purchase, and when I say purchase it means that you can go and get your eight tests over-the-counter without having to pay anything out-of-pocket. And so without having to go through that reimbursement process, et cetera, et cetera. The motivating factor here for insurers to do that is that test is capped at \$12, right, so that they can cap that reimbursement at \$12.

Should insurers not take this approach and just use the reimbursement process completely then that cap does not exist. And then you're paying -- you're reimbursing at the actual price. So, you know, there was -- there was short notice obviously. We had a whole lobbying really four days to put this into effect. And so PEBP worked with, mainly with ESI because this was going to be a pharmacy benefit versus a medical benefit since it is eventually going to flow through the pharmacies.

So we worked with ESI to come up with a game plan. And so ESI today, I know that and we do have representatives from ESI if there's any questions, but I know that they're still working through some of the processes.

CAPITOL REPORTERS (775)882-5322

There are no -- there's -- there's not an option to do this through that network of pharmacies where people can go to the -- to the pharmacy and get something -- get their over-the-counter test at no cost. Right now we do have to use that reimbursement process. It's somewhat manual, but ESI is working to put these all into place. We expect this to be happening here quickly, within the next 30 days.

In the meantime those on our self-funded plans are able to be reimbursed through a manual reimbursement process. They will have to complete a form and submit the receipts and receive reimbursement for those -- for those tests.

PEBP has put out communication. And unfortunately, you know, things change and so there are -- will be updated communication. But the original communication said that members had to go to the pharmacy to purchase these over-the-counter tests. It turns out that Amazon and other retailers are covered as well. So we plan to put out more communication as this is worked through and, you know, the details get worked out.

So that is for our self-funded plans. The HMO plan through HPN that their situation is a little bit different. Members can purchase over-the-counter tests at any Walmart pharmacy with no up front cost. So they are able CAPITOL REPORTERS (775)882-5322

to -- they have got that network in place through Walmart, and they can also submit receipts through their on-line member center as well to get that reimbursement if they choose to purchase their test elsewhere.

So the impact of this mandate, this is largely going to be dependent on COVID and what happens with COVID, right, because right now it is difficult to get your hands on tests. There is low supply. And so it's -- the likelihood that members are going to go out and purchase a test per person that are covered is pretty minimal, right, because you can't find those tests. It is very difficult to get your hands on those tests right now.

Should supplies become available and infection rates and perhaps future surcharges or sorry, surges. I've got surcharges on my brain. Future surges occur we could see a spike in claims because you're going to see similar to, you know, the toilet paper scenario that happened at the beginning of the pandemic. People will stockpile, right. So there's a significant chance that in that kind of situation that we'll see a spike in claims because these claims or these costs do come at a cost to the plan.

On the flip side you do have the argument that they will be -- that these tests at \$12 a piece are still cheaper than a PCR test. And so a PCR test can cost CAPITOL REPORTERS (775)882-5322

anywhere, just say about \$130. It's average, right. That's a Medicare reimbursement rate. So that is -- there's the chance that those PCR tests won't be billed to the plan and instead the new cost of the over-the-counter test will replace the old cost of the PCR.

The only caveat to that is that PCR test, many of them have not been charged to the plan to begin with. PCR tests have been charged either to the feds or there's, you know, grant funding. Many places that you go to don't even ask for insurance. And so when you go and get tested, insurance information isn't collected and, therefore, it is not charged to the plan.

So there's a pretty high chance that the PCR -that this is not replacing a -- the over-the-counter cost is
not replacing the PCR test in all cases. So there's a whole
lot of factors that play here. We're going to be watching
this very closely, but this is definitely an unfunded mandate
that does have the ability to impact the plan.

So additionally so let's get into the surcharges a little bit. There's not a whole lot of movement here with the focus on the testing rollout. We've been working on that. And the implementation of the new enrollment system, there's not any substantial updates to provide on the implementation of the surcharges into the system. We want to CAPITOL REPORTERS (775)882-5322

make sure the system is working right before we start working the new implementation of how to handle the surcharge in the enrollment and eligibility system.

However, some discussions have begun with the Governor's Office. And we are working by getting these details lined out so that we are in a situation where we can roll this out here quickly.

We've also been working with Benefit Focus to make sure that this is a function that can be turned on fairly quickly. And we're going to continue to work with Aon to monitor and ensure that, you know, we're looking and tracking these COVID costs and surcharges to ensure that the surcharges that were, those amounts that were approved at the December 2nd meeting still remain accurate and valid.

So before I get into staffing and all of the other stuff, I'll just stop there and we can address all things COVID first.

MEMBER AIELLO: This is Betsy. I do have a question. Some of the public comment has indicated that they are already looking for the religious medical exemption process. And I know I hear you guys working with the government office on developing it. Is anyone getting back to folks letting them know there will be one but it hasn't been developed yet. It's in process, but so that they know CAPITOL REPORTERS (775)882-5322

at least there will be one because some of them looked like they were questioning whether there would be one.

MS. RICH: So there's -- no information has gone out on this yet just because of the lack of details that are available yet. However, we haven't put out our January newsletter yet, we will be very very soon, hopefully by the end of January and that does include some information on it.

So we'll make sure to add maybe a little line about the exemptions and that there will be a process for that, and details will be -- will come out once those -- once that process is identified.

MEMBER AIELLO: I think that's -- this is Betsy again. I think that's worthwhile because it may set some people's minds at ease. They may not qualify or they may. But it may, you know.

MS. RICH: Any other questions on COVID before I move on?

MEMBER VERDUCCI: Yes. Tom Verducci for the record. You know, just in terms of the surcharge, everything is a beginning and a middle and an end to it. And I know this is a fluid situation and we're about oh, you know, by the time the surcharge starts would be two and a half years into the pandemic.

And my comment or question would be as far as the CAPITOL REPORTERS (775)882-5322

exit strategy, what would trigger us to be looking into 1 2 discontinuing the surcharge. What would we be looking into. I mean, is this going to be indefinite and what sort of 3 triggers would lead us as a Board to discuss discontinuing 5 the surcharge? MS. RICH: So Laura Rich for the record. At this 6 7 point the surcharge was approved for the upcoming plan year and it was only approved for one plan year. So at that point 8 9 moving forward, you know, the following plan year we have to have those discussions again. 10 11 MEMBER VERDUCCI: Thank you, Executive Officer 12 Rich. CHAIRWOMAN FREED: Okay. Any other questions? 13 If not we'll move on to I believe staffing. 14 15 MS. RICH: To staffing. PEBP unfortunately has not been immune to the staffing issues that have plaqued I 16 think just everybody nationally, not just labor shortages but 17 also because of COVID as well, people being out with COVID 18 19 and being sick and not being able to come into work. 20 PEBP currently has eight of 34 positions vacant. We're likely going to have nine due to a retirement, and 21 getting those open positions filled has been very 22 challenging. So the first obstacle, and this is not at all 23

the fault of the division of human resource management.

CAPITOL REPORTERS (775)882-5322

24

are also going through the same painful transitions with their new system as well. But there's, you know, longer processing times associated with just, you know, getting through that process.

And then once a candidate list is finally received, many of the best candidates are no longer interested. And so we have had to in some cases repost jobs several times or even consider an underfilled position. So, you know, it's definitely been challenging on that side.

Then additionally, COVID infections and exposure have led to absenteeism. This has had very significant impact on our member services unit which is our call center because they are already understaffed. And the positions are unable to work remotely because of just the nature of what they do.

And so if anybody has been exposed or if they come down with COVID or any kind of absentee issue on top of already being understaffed they definitely feel the pain on that. I know we've been really proud that in the past we would answer calls very very quickly. The whole time was very short, if at all, and that is not the case these days.

We are -- it's taking a lot longer for members to get through. For our, for members to get, you know, service at all because of the issues that we're having. And so our CAPITOL REPORTERS (775)882-5322

staff is, especially in that call center, are working hard and frustrated at times as well.

And with that, you know, I do want to say that the additional volume of just work in general that is happening at PEBP as well as the numerous implementations and changes that are, you know, taking place staff have been overwhelmed. It has been -- it has been a huge undertaking. And I just want to, you know, publicly thank all of the staff because everyone is putting in 100 percent effort here. And from the top to the bottom, you know, they are putting in 100 percent effort and, you know, despite all of the challenges, not just staff but our vendors as well.

I know some of our vendors with all of these changes that are happening they are also impacted by this as well so we've got a lot of -- a lot of our vendors are working really really hard to make sure that PEBP is successful as well and they are also handling COVID infections and staffing shortages as well.

So, you know, I just want to make sure that that's emphasized because the team here is working really really hard to do what we can do and to ensure our mission is accomplished.

The last thing is legislative committee meetings.

I did want to bring to the attention of the Board that we do

CAPITOL REPORTERS (775)882-5322

have two pretty big important meetings coming up. On February 8th PEBP is scheduled to present at the Interim Retirement and Benefits Committee which is IRBC. statutory -- statutory requirement of PEBP. We present a series of reports regarding the prior years' performance. But in, I believe last year we started doing this where even though it's not a statutory requirement we have also presented the committee with information on what PEBP is doing this upcoming, the upcoming plan year as well.

So I think that helps. I think it helps the legislators understand what is coming to them in the next session and what they're going to be dealing with and keeping up with all things PEBP. But it also helps I think staff understand the appetite of legislators as well on certain issues.

And then also on the 9th, the following day, PEBP is scheduled, we are on the agenda for Interim Finance

Committee and this is where IFC will be reviewing the 8.7 million dollar work program to use those funds from excess reserves to restore the plan benefits as was approved by the Board in December. So any questions there?

CHAIRWOMAN FREED: All right. Thank you very much. If there are no questions from the Board Members, this is an info item so we can just move on to Agenda Item Six, CAPITOL REPORTERS (775)882-5322

enrollment and eligibility system implementation update for Mr. Proper, the operations officer.

MR. PROPER: Thank you Chair Freed. Can you all

hear me?

CHAIRWOMAN FREED: Yes, we can. Thank you.

MR. PROPER: Nik Proper for the record. I will be presenting the enrollment and eligibility system update. PEBP's new enrollment and eligibility system is called Benefit Place which is managed by Benefit Focus went live this month. And although PEBP's contract is with LSI, the bulk of the work is being subcontracted to Benefit Focus.

And as with implementations and system changes there will be successes, challenges, and things needing to be fine tuned after going live. So I will first present the successes. So Benefit Place, the admin and member portal worked successfully on day one with members and admin staff able to successfully log in.

And if you remember in November, we had a voluntary benefit special enrollment period, and those elections were also processed correctly. And health and correct health coverages and elections processed correctly and displayed for most members.

With the creation of demographic file integrations with the state's two biggest pay centers, CAPITOL REPORTERS (775)882-5322

Central Payroll and NSHE, employees with demographic changes and HRA representatives handling those changes not only make those changes in their respective systems as opposed to also in PEBP system which was prior they had to do it in two places, now just one. So ideally this should increase efficiency and reduce administrative errors in the long run.

And before I get to the challenges, I just want to emphasize that over 90 percent of PEBP's members have had no coverage issues or discrepancies or problems from this implementation.

So now to the extensive list of challenges. The first being member data discrepancies. So with system changes, data integrity and reconciliations are part of system go lives and with this there have been some discrepancies on member accounts, including a very small number of members missing in the system, status or coverages incorrect from the prior month, incorrect HSA contributions and incorrect subsidies apply on some retirees' accounts.

Many of these have -- at the time of writing this many of these have already been corrected as of today. But there is still some that were being worked out. So PEBP staff and Benefit Focus staff are doing their best to reconcile these accounts and resolve the issues immediately, including performing urgent updates with the carriers, with CAPITOL REPORTERS (775)882-5322

the vendors so members can access services.

But at this time we do not have access to prior historical information. That will be coming in the next week. So PEBP must rely on Benefit Focus to investigate and help resolve the bulk of these issues by auditing and reconciling data from PEBP's previous vendor and with the integration of demographic files with Central Payroll and NSHE. This should improve many of these discrepancies shortly. But the downstream effects on the accounting and billing side will continue until these issues are resolved.

Continuing with demographic data, as I stated, this implementation focused heavily on demographic file fees with those two centers, meaning Central Payroll and NSHE, with the idea was that those agencies would know what statuses their employees are supposed to be in.

And while we hope in the long run this will be a benefit this has contributed to some discrepancies as the new system does not allow staff to manually make certain changes on members' accounts directly because any information coming over on demographic file feeds will override any of these manual changes. So we're currently fine tuning some categories on demographic files to make sure this is not a long-term problem.

Now to the biggest issue which is related to CAPITOL REPORTERS (775)882-5322

accounting and billing processes.

Currently PEBP staff and PEBP members do not have access to the billing platform to view or even make payments. We have -- we had to produce January invoices based off of December data for direct billed members and direct billed groups to send payments to which can potentially miss newly direct billed members for this month. And PEBP uses enrollment reports to pay vendors, make tax payments, project budget revenue expenditures and build budgets. And without accurate and timely enrollment reports, those functions are affected causing heavy reconciliation efforts by agencies, accounting staff and vendors.

And I just want to call another issue is premiums and deductions are also inaccurate on some members' accounts due to these discrepancies. And PEBP premiums are always not, not always an even number. So deductions for many Central Payroll and NSHE employees are going to be off by one cent due to Benefit Focus having to round to the nearest cent because of their system functionality only being able to split deductions 50/50.

And so with these billing and accounting issues, it's causing, again, heavy reconciliation efforts with the frustration on staff, DHRM, NSHE members and just agencies across the board. And so Benefit Focus is working to address CAPITOL REPORTERS (775)882-5322

the rounding issue on adjustment files and possibly with the new plan year in July reverting all deductions being taken out in one lump sum which is how we did it prior to January. And they are also working internally to solve and finalize the rest of the billing processes and then report back to us in the upcoming days for status updates.

As I stated earlier, Benefit Place is the name of the new portal for members and admin staff. And so on the admin side we're not really looking at it as a true CRM system in that staff are accustom to more user friendly functionality that this system currently lacks.

Basic functionality such as creating notes on a member's account, responding to messages and processing eligibility events all now take much longer to accomplish in the system. And so because of this internal operation processes and procedures take longer which means coverages take longer to process and also means staff being on calls longer, contributing to longer call times and people having to wait in the queue longer.

There are some future development and process changes that are addressing some of these issues. Some will also remain just due to the way the functionality of the system is built.

And with those issues it could cause potentially CAPITOL REPORTERS (775)882-5322

other downstream affects which we're hoping to avoid. One includes the July 1st Smart 21 integration go live with DHRM. And LSI has been in communication with OPM to address these concerns and a possible other issue with how the previous delays and issues is this could cause challenges and appropriately implementing the Board approved COVID surcharge on unvaccinated member accounts beginning in July. And we're working diligently to address all of these implementations and we're beginning open enrollment discussions to get ahead of this already.

So with everything I already stated, the enrollment eligibility contract with LSI includes performance guarantees related to implementation as a result of the missing functionality and data discrepancies that impact member accounts and staff's ability to perform the mission of the agency, PEBP is considering the assessment of penalties with the maximum penalty being 10,000 for each of the two performance guarantees.

We have a recommendation on this report to assess performance penalties or to assess the proposed service credits that they will be presenting right after I am. And because of this, PEBP has discussed the various concerns and issues with leadership at LSI and as a result LSI has offered to propose alternative service credits and will be presenting CAPITOL REPORTERS (775)882-5322

a report.

And so with that we have Scott Muir and Amy
Winters with LSI and Benefit Focus on hand to present their
status report, including updates, mitigation and those
proposed service credits. So I can either pass the
presentation off to them.

CHAIRWOMAN FREED: Yes.

MR. PROPER: Okay.

CHAIRWOMAN FREED: No, I'm sorry. I'm thinking out loud, Mr. Proper. I apologize. This is Laura Freed for the record. I think what I would like to do is open it up to Board Members if they have questions on your staff report first. So, Board Members, are there -- I see a couple of people unmuting themselves. Member Aiello?

MEMBER AIELLO: Hi. This is Betsy Aiello for the record. And, Nik, I would like if you could address if a service credit or a penalty is more advantageous or is the bottom dollar line is what should be looked at. I mean, we'll listen to both reports. But if we're going to have option A and option B I wouldn't know if they are apples to apples.

MR. PROPER: Right. So the amount that will be in the report from LSI on the service credits is a lot more than the performance guarantees. So that amount is much CAPITOL REPORTERS (775)882-5322

```
higher, if that's your question, Betsy.
1
                                The bottom line is because it was
2
                MEMBER AIELLO:
3
    something like 80,000 something. I can't remember.
4
    we have two penalties of 10,000 each that's 20,000.
    it -- but is the 20,000 penalty actually more advantageous
5
    because it can be used different than a service credit
6
7
    or that's the kind of thing for final decisions I would like
    to know versus if it's dollar for dollar even then it would
8
9
    make sense which way to go but I don't know.
                MR. PROPER: Nik Proper for the record.
10
                MS. RICH: This is Laura Rich for the record.
11
12
    Betsy, it's irrelevant, either one.
                                         It's -- it is applied
13
    the same.
                CHAIRWOMAN FREED: Okay. I have a question
14
15
    for -- for Nik, okay. So you talk about, in this report you
    talk about member data discrepancies. And then under impact
16
    volume unknown, because staff only finds out when members
17
    contact PEBP, reported cases are around 100.
18
19
                But it seems like the data file errors have led
20
    directly to the accounting and billing errors which are
21
    numerous. Do I have that right? Am I reading this
22
    correctly?
23
                MR. PROPER: Nik Proper for the record. Yes, you
24
    are.
                  CAPITOL REPORTERS (775)882-5322
```

```
1
                CHAIRWOMAN FREED: Okay.
2
                MR. PROPER: So that amount that I listed as 100,
3
    those are self-reported issues of members calling in.
4
                CHAIRWOMAN FREED:
                                   Okay.
5
                MR. PROPER: Yes. But there are other buckets of
6
    people experience different issues such as subsidies on
7
    retiree accounts which that number was much higher.
8
                CHAIRWOMAN FREED:
                                   Okay.
9
                MR. PROPER: That was roughly 1,000 and that
    issue was resolved --
10
11
                CHAIRWOMAN FREED:
                                   Okay.
12
                MR. PROPER: -- a couple of weeks ago.
                CHAIRWOMAN FREED: Okay. So retirees are not
13
    having their entire premium deducted from their PERS checks
14
15
              They are now getting their subsidy credit.
    anymore.
                MR. PROPER: Nik Proper for the record. That is
16
17
    correct.
                CHAIRWOMAN FREED: Okay. That's a relief.
18
19
    Just this morning I received an e-mail from the Central
20
    Payroll staff indicating about 60 percent of the total people
    who participated in voluntary benefit deduction have problems
21
22
    with their voluntary benefit deductions. What is the
23
    remediation plan for that issue?
24
                MR. PROPER:
                            Nik Proper for the record.
                  CAPITOL REPORTERS (775)882-5322
```

Benefit Focus is still working how to mitigate that. But what caused that was I'm going to try to answer this delicately.

CHAIRWOMAN FREED: All right.

MR. PROPER: Was a lack of just communication with prior vendors on what was needed for DHRM to stop those deductions moving forward with Benefit Focus.

CHAIRWOMAN FREED: Okay. All right. And, okay, I'll probably ask LSI and Benefit Focus to answer that. But I see that Member Kelley has her hand raised. Please go ahead, Member Kelley.

MEMBER KELLEY: Thank you. I guess I have along the same lines just a bit of a detail question, Mr. Proper. Michelle Kelley for the record. You mentioned that the system is not as user friendly for PEBP staff. And in the past because some of the family premiums are so high and, you know, how we end up in arrears when new hires come onboard because, you know, they are essentially eligible, at NSHE we usually hire on the first of the month so they are eligible immediately. So we end up a couple of months in arrears just with the processing enrollment and in submitting PEBP actually charging participants.

So some participants end up, you know, thousands of dollars in arrears or at least 1,000. So I'm just CAPITOL REPORTERS (775)882-5322

wondering does that mean that, and PEBP has worked with employees too so they can catch up in a fiscally responsible manner rather than having to pay the full arrears in one month. Is that going, the new system, the difficulty PEBP staff having, making notes and things, is that going to impact your ability to do those incremental catchup charges? Sorry for the long winded introduction.

MR. PROPER: Nik Proper for the record.

Unfortunately that's really hard to answer because we have no visibility into the billing platform at all right now. So I would love to give a direct answer, but we can't even see that information yet. So that will contribute and is contributing to balancing affects and reconciliation efforts, absolutely.

MEMBER KELLEY: Okay. So just as a follow-up then. Is that issue already on your radar to be monitoring so that we can continue to be a bit user friendly for our participants who do end up in arrears but catch up amounts? Because I think from NSHE's perspective, you know, I'm sure the state as well, you know, and especially now that we're adding subsidies on top of that for some employees, you know, these catch up arrears can be really difficult for employees to navigate.

So I would just ask if it's not already on your CAPITOL REPORTERS (775)882-5322

```
radar to make sure you have the ability to do that to -- to
1
2
    really put a priority on that because I know we utilize that
3
    service a lot.
                MR. PROPER: Nik Proper for the record. Yeah,
4
5
    billing is the concern and priority right now, absolutely,
6
    Michelle.
7
                MS. EATON:
                            This is Cari Eaton for the record.
    would just like to add a little bit. So because NSHE and the
8
9
    Higher Education and Central Payroll are integrated through
    their files right now, even though we can't see into this
10
11
    system, our understanding is those are being generated
12
    properly. So there should not be a lag on those ones.
                                                             It's
13
    the members who are directly billed who are not receiving
    anything.
14
15
                So we've had to ask them to pay their December
16
    bills again and in hopes that it hasn't changed.
                MR. PROPER: And Nik Proper for the --
17
                MS. EATON: Hopefully that helps.
18
19
                MR. PROPER: Nik Proper for the record.
20
    continue on what Cari said, those members that are direct
    billed are a small population compared to the bulk of the
21
22
    employees that are under Central Payroll and NSHE.
23
                CHAIRWOMAN FREED: Ms. Caughron?
24
                MS. CAUGHRON:
                               Yes, April Caughron for the
                  CAPITOL REPORTERS (775)882-5322
```

record. Just curious how we're handling this proactively. 1 2 Are we reaching out to members that could possibly be impacted? What kind of outreach is happening? You know, 4 from a project perspective, the last thing you want is for 5 your members to bring it to your attention. You want to be able to bring it to their attention and show them that you 6 7 are aware of it rather than waiting for it to escalate. what kind of plan is in place for that? 8 9 MR. PROPER: Nik Proper for the record. definitely understand the frustration because PEBP staff is 10 11 very frustrated that we can't just run a report and just pull all of these members. We don't have information from last 12 month, meaning December, yet. And we're going off of data 13 that Benefit Focus has conveyed to us. And so if there is an 14 15 issue, we have to reach out to agencies because they are typically the system of record on their employee statuses, 16 and so it's just causing a lot of manual work. 17 I understand that we should be reaching out, but 18 19 we don't have a report on who to reach out to with what 20 problem because there's various problems all across the So we're having to rely on LSI and Benefit Focus to 21 22 assist in these efforts. 23 CHAIRWOMAN FREED: Ms. Bittleston, unless 24 Ms. Caughron has a follow-up.

MEMBER CAUGHRON: No follow-up.

2 CHAIRWOMAN FREED: Okay.

MEMBER BITTLESTON: Leslie Bittleston for the record. I think a couple of things are pretty shocking in Mr. Proper's report. And one of the things that really stands out to me is that staff do not have a -- a way to go in and, you know, look at, you know, an administrative portal so to speak. And to me this should have been ready upon day one.

So I'm -- I guess what I'm doing is I'm making a comment, a proposal, so to speak, that I think there should be some penalties. Maybe put LSI on a corrective action plan with some really strong firm timelines. And if they -- you know, penalties up front for, you know, not having some of these things ready but a corrective action plan to -- to get them into compliance because this seems to be -- I mean, this -- this is so important, you know, especially when Laura Freed, our wonderful Chair, mentioned that 60 percent of folks are having problems.

I mean, if it was less than ten percent or two
percent I don't think, you know, I would be making this
strong of a statement. But when it is so high, 60 percent, I
think we need to start assessing, put them on a corrective
action plan, starting assessing some penalties for especially
CAPITOL REPORTERS (775)882-5322

```
things that weren't even ready on day one. Thank you.
1
2
                MR. PROPER: Nik Proper for the record. I want
3
    to clarify that 60 percent is not 60 percent of PEBP's
4
    population. That 60 percent is 60 percent of people with
    voluntary benefit elections which is much smaller than the
5
    entire state population.
6
7
                CHAIRWOMAN FREED: Right. Yes, that's true.
    That's about 6,000 participants, if I'm not mistaken,
8
9
    Mr. Proper.
                MR. PROPER: Nik proper for the record. Yes,
10
11
    that's correct.
12
                CHAIRWOMAN FREED: I mean, still, you know, 100
    participants having problems is too many.
13
14
                MEMBER BITTLESTON:
                                    It's too many. I amend my
15
    statement. My apologies for my misunderstanding.
    again, I still think that it is extremely problematic that we
16
    do not have an administrative log in on day one. And, you
17
    know, and do I think that some penalties need to be assessed.
18
19
                MR. PROPER: Nik Proper for the record.
20
    want to clarify. We did have access to the admin portal on
    day one. We did. It's just we're going by the data that's
21
22
    in that system as the source of record and relying on
23
    feedback to say no, this is incorrect. My account is
24
    incorrect, right.
                  CAPITOL REPORTERS (775)882-5322
```

So we're looking at a member's account in the new system hoping that that is correct given the prior data transition and data files being sent from a prior vendor assuming that that was correct data as well. So we do have access to the system. We just can't tell if it is incorrect or not hence Benefit Focus and LSI doing heavy reconciliation efforts with all of the data fades.

MEMBER BITTLESTON: Follow-up to that, Leslie
Bittleston for the record, is there was no like quality
assurance review of the data transfer or something like that.

I'm just trying to understand where the problem is I guess.

MR. PROPER: Nik Proper for the record. Some of these were a timing issue for new hires or status changes in December and January. For employees that had no status changes prior to December there were no issues on those members' accounts, just timing issues from sending data from the previous vendor to Benefit Focus, things were not necessarily accurate coming from the prior vendor.

MEMBER BITTLESTON: So to follow-up we did a good job with longstanding members that had no changes. That was all fine but it was these folks that had some changes. Maybe they -- could it be because they selected a different plan or they were new members. All of those folks are what we're talking about.

```
MR. PROPER: Nik Proper for the record.
1
2
    you're correct.
3
                MEMBER BITTLESTON: Okay. Thank you.
4
                MR. PROPER: Like new hires, newly retirees,
5
    people electing COBRA or having a qualifying life event that
    changed their plan or tier. So in December or early January
6
7
    some of those is what caused some issues, yes.
8
                MEMBER BITTLESTON: Okay. Thank you.
9
                CHAIRWOMAN FREED: All right. Board Members
    additional questions for the staff?
10
                Okay. So, Mr. Proper, is the staff's
11
12
    recommendation then to accept the credit to PEBP of
    $87,618.50 as presented in the LSI Benefit Focus report as of
13
    January 21st?
14
15
                MR. PROPER: Nik Proper for the record. Yes,
    that is correct.
16
17
                CHAIRWOMAN FREED: Okay. All right. And that
    represents -- that represents one month of per member per
18
19
    cost for this contract. And we would forego the $20,000 in
20
    penalties.
21
                MR. PROPER: Nik Proper for the record.
22
                CHAIRWOMAN FREED: Okay. All right. Well, I
23
    guess -- I guess the thing that I want to know and I think
24
    that, and if I can, you know, getting the sense of the
                  CAPITOL REPORTERS (775)882-5322
```

frustration of the Board and getting a sense of the 1 2 frustration of the participants and including those that have contacted the Governor's office is, you know, when will all of this be worked out. And it says -- and maybe we have 5 current statuses as of January 21st, only six days ago. confident that, is PEBP staff that this -- these issues, 6 7 including the voluntary benefits one that I was made aware of this morning will be actually settled, you know, the tickets 9 handled and by the end of February as this report seems to contemplate? 10 11 It's one thing I guess to, you know, accept 12 \$87,000 from the vendor and credit. It's another thing entirely to -- you know, but that doesn't mean anything for 13 the people on the end who are having, you know, their PERS 14 15 checks messed with or the employees who don't have the right voluntary benefit. Like, you know, it's more important to me 16

and to the Board and to you guys on the staff that this

actually gets fixed. So how confident are you guys that this

is going to get fixed in the next month?

18

19

20

21

22

23

24

MR. PROPER: Nik Proper for the record. I would love to say we're feeling confident but we're not.

CHAIRWOMAN FREED: Okay.

MR. PROPER: That's the unfortunate reality. And the challenges that we had last week are no longer the same CAPITOL REPORTERS (775)882-5322

```
challenges --
1
2
                CHAIRWOMAN FREED: Right.
3
                MR. PROPER: -- we're facing this week.
4
                CHAIRWOMAN FREED: Okay.
5
                MR. PROPER: And next week there's going to be
    new challenges we didn't foresee. Just, we're in a bad spot,
6
7
    Chair Freed.
                CHAIRWOMAN FREED: All right. You know what, I
8
9
    appreciate the candor. That's -- it's most important.
10
                Ms. Caughron.
11
                MEMBER CAUGHRON: Yes, April Caughron for the
12
    record.
             So to that point I do question then the status of
    yellow for your project status report. I'm looking at it
13
           It shows that you're yellow. Everything I'm hearing
14
    here.
15
    really points to red.
                You know, we have data validation issues, data
16
    qualify issues, billing issues, visibility issues. I just --
17
18
    you know, maybe perhaps you could give us a little bit of
19
    background as to why a decision was made to go yellow with
20
    this, but I'm just having a hard time understanding that.
21
                MR. PROPER: Nik Proper for the record.
22
    staff was not involved in the decision of green, yellow or
23
          But to be clear, 90 percent of the entire PEBP's
    red.
24
    population is having no issues.
                  CAPITOL REPORTERS (775)882-5322
```

CHAIRWOMAN FREED: Okay. I guess that's a question for LSI to respond to then, and I'll let Mr. Muir chime in.

MR. MUIR: So thank you, Chairman Freed, and thank you to the, Board, for allowing me to present and talk to you guys today.

For the record, Scott Muir. I am the program director for both on the LSI side for both the PEBP project as well as the Smart 21 project. And I appreciate the comments that have been given today. I want to speak to all of those and take your questions to make sure that when we leave this you all feel comfortable about the sense of urgency, about the resolutions being put in place, about the specifics around some of these items that have been mentioned.

To start off with, the question was just mentioned about yellow and red, this is a call that we made to Nik's point. We really have two parts of this. We have 46,115 members of the State of Nevada in the system right now, and we're processing benefits for those. We did meet the go live dates. Although, there were challenges around that which I will speak to.

So to your point there are aspects of this no doubt that are in the red zone, and I'll speak to that.

CAPITOL REPORTERS (775)882-5322

There are aspects in the green zone as Nik has mentioned that, you know, we try to take a balance. And we could have moved it more to the orange or but I think the meter really is more about how we're handling all of these and categorizing all of these issues.

Let me, I think these fall into three areas. And I don't know if the Board -- I believe you've all read the report, and I appreciate the opportunity to submit the report to the Board. So I won't read through all of those. I'm happy to speak to along with my partner from the Benefit Focus side, Amy Winters, any of your questions.

But I just want to kind of take these down the line and just kind of set the tone first of all and let Nik to agree or disagree with me. I think we've had enough conversations with the leadership team and PEBP that we're really in a stabilization, a project of this nature we're in a stabilization and maturity period in transitioning from a previous legacy vendor and technology over to this new Benefit marketplace. While we want to make that time period as short as possible there are going to be issues like this.

So having said that there's three buckets. Data so based on what I showed you in the report, I'm confident and Amy can tag on here as well, there has been an entire triage team on the Benefit Focus side dedicated to going CAPITOL REPORTERS (775)882-5322

through the reconciliation between the data we got from the previous vendor and what we're putting into the system right. And I'm not trying to throw the previous vendor under the bus or anything. It's just the way these projects go, the quality of the data and the responsiveness of that previous vendor was problematic. We all tried to work around that. But in a project of this nature, to get the data into the system you have to take the latest production based data which is at the very end of the chain prior to go live.

When we got that data there were certainly mismatches of that. And we have been working through that process diligently everyday, night and day in some cases to try to help to figure out where all of these mismatches are coming from.

I'll ask Amy to comment because she just has the latest as of last night. And by the way, we get a status report everyday on this from the Benefit Focus team about what they're finding and what they're correcting.

And, Amy, I believe we're in the final period of being able to go back to PEBP and say from the data that we had both in the HealthSCOPE system which was the previous vendor as well as the HSB system. We're fairly 99 percentish, almost 100 percent into the mode of full reconciliation. Amy, would you agree? I don't know if Amy CAPITOL REPORTERS (775)882-5322

- can talk. Amy, are you there. Okay. I will follow-up with the Board, but that was the last of last night.
- So I believe the next iteration of a status
 report back to the PEBP leadership team is that we are at
 the, almost at the end of the chain of the data

reconciliation issues.

6

- By the way, if you noticed in the report, as part of our engagement in this project we are meeting with PEBP on a daily basis. We have a one hour triage both from an operational tactical perspective and now we're implementing a more daily call with leadership around these big implementation challenges. So that's the data part of it and
- hopefully -- I'll stop there because you may have questions on that before I go to the billing.
- MS. WINTERS: Hi, Scott. Can you guys hear me?

 This is Amy Winters.
- MR. MUIR: Yep. Amy, now we can hear you.
- MS. WINTERS: Okay. Apologies for the technical difficulties. And thank you for the opportunity to share some of this information and answer questions.
- Chairman Freed, thank you for the opportunity and the rest of the PEBP Board as well.
- Scott, I wanted to go back to your question.
- Yes, that's correct, we are at the tail end of trying to CAPITOL REPORTERS (775)882-5322

actually reconcile and make the corrections in the system. 1 MR. MUIR: 2 Great. Thank you, Amy. 3 To the Board, any questions relative to the data 4 piece of this? 5 MEMBER BITTLESTON: This is Leslie. May I ask a 6 question. 7 MR. MUIR: Sure. So having gone through this 8 MEMBER BITTLESTON: myself but I guess we call it a data migration. 9 MR. MUIR: Uh-huh. 10 11 MEMBER BITTLESTON: From one system to the next, 12 one of the lessons that I learned in doing that myself with the case management system is the vendor. The old vendor and 13 the new vendor didn't really have a one for one data match. 14 And what I think was a lesson learned is that was not fixed 15 prior to the data migration. They knew it existed but they 16 did not fix it prior to the data migration. So that's when 17 I'm hearing you say is that, you know, once the data 18 19 migration was made there were errors in the system or bad 20 data or dirty data. So my question or comment, maybe it's more of a 21 22 comment that as a new vendor may be a lesson learned would be to fix some of that stuff up front so we have less data 23 24 errors or to have the old vendor go back and, you know, do CAPITOL REPORTERS (775)882-5322

some data cleanup, things like that. Because, like I said, it is extremely, extremely frustrating when you've got that issue where you say, well, the data -- the data migration was unsuccessful.

So I think that -- I understand it. But I think there's fixes and I think we can do better. That's all I wanted to say. Thank you.

MR. MUIR: Yep. Thank you, Leslie. And I agree with you. We did a run with them prior to production where we did test some of this. As you probably in your experience, when you get to the final end and you're in dealing with production based data and now you're having to reconcile what's in one system that should be in another, that's kind of where this has fallen out.

The good news, and I would ask Nik too to confirm for me, is that we're dealing with the exceptions, not the masses. And while that's very troublesome or problematic for members because this does affect them, I would also say to you that any -- and, again, I've asked the PEBP leadership team to confirm for the Board, any time that this has been brought up to our attention it's an immediate all hands-on deck. Let's go figure out why this is occurring. Let's go do the manual corrections for that member. Let's re-communicate back to them that this is fixed.

CAPITOL REPORTERS (775)882-5322

So there's a sensitivity that, you know, we understand what the downstream affects of this and we're trying to jump on it as fast as we can. We're trying to minimize those events and I think we're getting to the end of the road. And we will keep the PEBP leadership updated and certainly that item will flow to you as the Board.

Is there any questions before I move on beyond data?

Okay. Billing, absolutely on behalf of Benefit Focus this is a miss for us. Billing was originally supposed to be tested and fully vetted in, back in the November and December time frame prior to go live to provide PEBP and Cari and her accounting team the visibility for what they needed to do on paying vendors, the accounting and charges and that type of thing.

In full transparency, we've run into issues around the logic configuration of the subsidies that tried billing. And there's been a lot of detail to go back and figure out do we have all of the subsidies matched? Do we -- are we sure we're all in line with the logic that needs -- because it's a very complex very -- because it drives eligibility around the whole billing piece of this.

So absolutely in transparency this was a miss for us. To Nik's point and up until recently we've had to as a CAPITOL REPORTERS (775)882-5322

workaround suggest to PEBP to use December billing. As of today I can report to the Board and to PEBP I haven't -- sorry, PEBP leadership, I haven't gotten to you this morning. And I believe it's today, Amy, that we're going to, we have a meeting on the calendar this afternoon to demonstrate to Cari and team the member report so that she has complete visibility to the member enrollment and that will be a big first step in this whole, you know, being able to reconcile the billing until the full billing platform is up.

Amy, I'll stop there. Is that correct?

MS. WINTERS: Yes. Amy Winters for the record.

That is correct. We're planning to share the head count report and review that with Cari. We sent that over to her this morning. So looking forward to feedback on that.

MR. MUIR: Now that's just one step of the contract. Amy has been great on her side of the Benefit Focus to create a very dedicated triage team for this. And as you see in the report, we're working toward a resolution to get the full billing platform reviewed by PEBP staff, approved by PEBP staff and launched in February. I think February 14th is the current target date for that.

And our really end goal is we have to be able to get Cari and team the billing platform functionality by the 25th, Cari, if I'm not mistaken because that's the next cycle CAPITOL REPORTERS (775)882-5322

period for the next billing that will come out.

So we're all marching toward that. And I think that was one of the biggest proactive issues on my part to say, yes, we can go by the contract. And, yes, it's \$20,000. But this was a miss by LSI and Benefit Focus. And so we know the sensitivity to this. We want to own up for our responsibilities and that's one of the reasons you saw the credit that we proposed in the report. I'll stop there.

Any questions on the billing piece?

Okay. Last is, and we really put this in the bucket of usability. I think Nik referred to this as the additional lack of proficiency or somewhat burden on the PEBP staff from an operational perspective. We believe the functionality is there.

I think when Amy and I have inspected this there needs to be a lot more training and knowledge transfer and enablement we do need to do with the PEBP staff. So we've owned up to that. I think, you know, we're trying to take care of the big buckets, the data and the billing right now. But we certainly communicated to Laura, Cari and Nik the commitment, if you will, to start a more in-depth knowledge transfer training program for the administrators of their team to get to where they can do true case management, have the data in their possession and work through the process, CAPITOL REPORTERS (775)882-5322

right, because it will be a big miss on our side if that can't happen or at least we can't facilitate that.

So full acknowledge the frustrations on that piece, I think with everything else going on it kind of got dropped in the back end. But we want to bring that back up to the front end because when we get these other two fixed we should be able to get to that piece.

With that said, my final I guess summary is we're trying to make the stabilization and maturity period as short as possible. And we're fully, and Amy can correct me if I'm wrong, both teams are trying to get through this next month at most to get all of these issues fully addressed and resolved so that by the time we get to the end of February we can confidently say that the new benefit place system is effectively working for all members. The data is correct and the PEBP administration staff is being able to use it effectively.

With that I'll turn it back to the Board.

CHAIRWOMAN FREED: Okay. Thank you. Well, this is Laura Freed for the record. Gosh, I don't know that we have much to do here except for accepting LSI's offer for the credit and just reemphasizing to everyone how concerned the Board is that this actually get on track and completed by the end of February.

So if there's other discussion for the Board

Members I'm happy to hear it. Otherwise, I would accept a

motion to accept the credit to PEBP as specified, the

\$87,618.50.

MS. RICH: Chair Freed, is there an appetite for the Board, for this to come back at each Board meeting an update.

CHAIRWOMAN FREED: Oh, yeah.

MS. RICH: LSI to, okay.

CHAIRWOMAN FREED: Yes, definitely. I mean, our next -- we don't have a February meeting. We have a March meeting. So I would love to know at the March meeting that this has all been resolved and that we don't have anymore unhappy participants.

Oh, Ms. Bittleston, please.

MEMBER BITTLESTON: Yes. So first of all, I want to thank Mr. Muir for taking ownership of the misses. And I agree with Ms. Caughron that we seem to be more towards the red.

With that being said, I do want to make I guess two motions or maybe one big motion that we accept the request of repayment or credit, however we want to say that and have LSI report to us at the next Board meeting with the thought that if some of these things are not fixed or CAPITOL REPORTERS (775)882-5322

everything is fixed that we request credit again. So I guess I'm trying to throw all of that into one motion.

CHAIRWOMAN FREED: Thank you. That sounds good. Before I ask Mr. Muir to weigh in, I'll ask if there is a second on the Board for that motion.

 $\label{eq:VICE CHAIR FOX: Linda Fox for the record. I'll second the motion.}$

CHAIRWOMAN FREED: Thank you, Vice Chair Fox.

Mr. Muir?

MR. MUIR: Yes. Ms. Chairman, I totally agree with that motion and support that. If you will indulge me, I forgot one critical item that you brought up and others which was the voluntary benefit missed deductions that were reported through Central Payroll. And I just wanted to give you all kind of a clarity on that because that's being fixed as well.

Specifically for everybody that is the deductions that were being taken out prior to the system going live in the old system which was the Liberty Mutual deduction for insurance for voluntary benefits. And as Nik has mentioned what was the transition between the old system and the new system the stop deductions did not get taken out which we -- it's not in our system so we didn't have visibility on it.

Now having said that, we're happy -- we're trying CAPITOL REPORTERS (775)882-5322

to work with Central Payroll because what happened is those deductions were taken out. The money was sent to Benefit

Focus by mistake. And now we're trying to work with Central Payroll to help find the refund method back to the employees and find the refund method that works for the state to get the money back to you all because it should have never came to us.

I sent out an e-mail to Tina this morning at Central Payroll and said we were going to have a meeting. We need to get everybody on the same page. How do we do this. Let's go do this. We're on. Everybody on board to do this. So I just wanted to report back to you as well.

CHAIRWOMAN FREED: Okay. Thank you. Okay.

Board Members, it has been moved and seconded to accept the credit to PEBP in the amount of \$87,618.50 as well as require a report back at the next Board meeting on the status of all of this.

Is there any discussion on the motion? Okay hearing none, all in favor signify by saying aye. Any opposed no.

21 (The vote was unanimously in favor of the 22 motion.)

23 CHAIRWOMAN FREED: Okay. Thank you very much.

24 With that I think we can take a little break if the Board

CAPITOL REPORTERS (775)882-5322

```
would like to before Agenda Item Seven, maybe a five-minute
1
2
    break or something. Okay. Why don't we do this, why don't
    we come back at 11:30 to tackle Agenda Item Seven.
    everybody.
5
                (Whereupon, a brief recess was taken.)
                CHAIRWOMAN FREED: And I will call on Cari Eaton,
6
7
    the chief financial officer, to discuss contracts.
8
                            Thank you. Cari Eaton for the
                MS. EATON:
9
    record.
             Item Number Seven addresses the status of contracts.
    So if Chair Freed agrees, I would actually like to address
10
11
    Item 7.2 last in this report as we need to close down the
12
    meeting to address the new contracts. So would it be okay
    for me to proceed out of order?
13
                CHAIRWOMAN FREED: It would be fine to do 7.1,
14
15
    7.3, 7.4, 7.5 and then we'll go back to 7.2. That sounds
    great, but thank you.
16
                MS. EATON: 7.1 is an overview of the current
17
    active PEBP contracts and no action is necessary.
18
19
                So I will move on to Item 7.3. And Item 7.3 is
20
    requesting the PEBP Board approve a contract amendment to the
    Express Scripts contracts. PEBP contracted with Express
21
22
    Script or PBM services which became effective April 12th,
    2016 and has a termination date of June 30th, of this year.
23
```

CAPITOL REPORTERS (775)882-5322

This amendment increases the contract max from

24

291,000,000 to 303,000,000. This increase adds additional authority to pay claims since claims costs have gone up through the remainder of the contract.

In addition to adding authority to implement the optional Medicaid Subrogation program. That was included in the original RFP response. The Medicaid Subrogation program is required pursuant to the state status. State status is implementing provisions of the Federal Deficit Reduction Act of 2005 pertaining to Medicaid third party liability.

Third party insures and their pharmacy benefit managers are required to furnish state Medicaid departments where they're contracted agents with enrollment and eligibility information sufficient to enable Medicaid to identify instances in which an individual is covered by both Medicaid and by a private insurance such as PEBP. So, therefore, those insurers may have third party liability for Medicaid claim.

So PEBP recommends the Board authorize staff to amend the contract between PEBP and Express Scripts to add the Medicaid Subrogation program and update the fee schedule and increase the contract maximum.

CHAIRWOMAN FREED: Okay. Thank you.

Board Members, any questions on 7.3.1? Okay.

Hearing none I will accept a motion to approve the staff CAPITOL REPORTERS (775)882-5322

```
recommendation.
1
2
                MEMBER AIELLO:
                                This is Betsy Aiello.
3
                MEMBER KELLEY: Michelle Kelley for the record.
4
                CHAIRWOMAN FREED: All right. Great. Do I have
5
    a second?
6
                MEMBER AIELLO:
                                Second.
7
                CHAIRWOMAN FREED: Sounds good. All right.
                                                              It's
    been moved and seconded to authorize Board staff to amend the
8
9
    contract between PEBP and Express Scripts, Contract 17715 to
    add Medicaid Subrogation program, update the fee schedule and
10
11
    increase the contract maximum. All in favor signify by
12
    saying aye. Any opposed say nay.
                (The vote was unanimously in favor of the
13
    motion.)
14
15
                CHAIRWOMAN FREED: Okay. Motion carries.
16
                Let's move on to 7.4, 7.5.
                MS. EATON: Thank you. Cari Eaton for the
17
             Item 7.4 contract solicitation for ratification.
18
    record.
19
    And 7.5 is an overview of our current in progress contract
20
    solicitations and no action is necessary.
21
                CHAIRWOMAN FREED: Okay. Thank you very much.
    With that, we'll go back to new contracts and pursuant to NRS
22
23
    333.475 because we're going to be discussing financial offers
24
    submitted by bidders we have to close the meeting.
                  CAPITOL REPORTERS (775)882-5322
```

So, Board Members, staff, deputy attorney 1 2 general, purchasing staff and vendors if you've received the 3 credentials to log into the other Zoom meeting that is the closed meeting then go ahead and log off of here and log into that one. I'll give you about five minutes to do that. 5 you can -- and everybody who is listening from the public you 6 7 can see the closed session is not expected to return to this meeting until after 12:00 noon. So with that I will see you 8 9 all over there. (Whereupon, after the closed session was had, the 10 following proceedings were had in open session.) 11 12 CHAIRWOMAN FREED: Okay. It is 1:00 o'clock and we are calling the public portion of the meeting back to 13 order. We were in closed session. We have finished that. 14 15 And we will go, again, to Item 7.2, new contracts. And so the question before the Board is selection 16 17 of Pharmacy Benefit Manager between Express Scripts pursuant to RFP 95PEBP-71711 and Northwest Drug Consortium pursuant to 18 19 NRS 333.475. 20 So Board Members heard a presentation from our actuary. Once again, thank you to Aon for that. And now I 21 22 will turn it over to the Board Members to make their choice. 23 Mr. Verducci? 24 MEMBER VERDUCCI: Yes. Thank you, Chair Freed.

```
I would like to make a motion to approve E Scripts, ESI to
1
2
    provide pharmacy services beginning July 1 of 2022, including
3
    their best and final offer and modified performance
    guarantee.
5
                CHAIRWOMAN FREED: Do I have a second for that
6
    motion?
7
                MEMBER BITTLESTON: Leslie Bittleston, I'll
8
    second.
9
                CHAIRWOMAN FREED: Okay. All right. It's been
10
    moved and seconded to approve a contract for pharmacy
11
    services beginning July 1st, 2022 with Express Scripts
12
    incorporated. All those in favor signify by saying aye.
                                                               Any
    opposed nay.
13
                (The vote was unanimously in favor of the
14
15
    motion.)
                CHAIRWOMAN FREED: Okay. Motion carries.
16
                                                            Thank
17
    you very much.
                Ms. Eaton, and, Ms. Rich, did we already do 7.5?
18
19
                MS. EATON:
                            This is Cari Eaton for the record.
20
    Yes, I believe we did.
                CHAIRWOMAN FREED: Okay. Okay.
                                                  Then it looks
21
22
    like we are a done with Agenda Item Seven and we can move on
23
    to Agenda Item Eight. This is the second public comment
24
    period. Again, comments are limited to three minutes per
```

person and I will turn it over to PEBP staff.

MR. HOPKINS: Thank you, Madam Chair. For those who have joined for public comment your name and last four digits of your phone number will be announced. You'll be advised you've been unmuted.

As a reminder, those on the phone, please press star six to unmute. And please slowly state and spell your name for record and proceed with your comments.

Last name with Gutierrez, you have permission to speak. Please unmute your mic.

MR. GUTIERREZ: Hello. Can you hear me?

MR. HOPKINS: Yes, we can.

MR. GUTIERREZ: All right. For the record my name is Tony Gutierrez, G-u-t-i-e-r-r-e-z. I'll start my comment with reminding everyone listening and the Board as well that COVID happened to all of us. It didn't happen to some of us and it wasn't caused by your neighbor.

The next comment I would have to make would be to remind the Board as well that all current vaccines and as well as tests for COVID are authorized only under emergency use authorization. Having stated that, I would like to read to the Board some language of that emergency use authorization statute.

Each individual must be informed of the option to CAPITOL REPORTERS (775)882-5322

accept or refuse administration of the product of the consequences, if any, refusing administration of the product and the alternatives to the product that are available and of their benefits and risks.

Since no Court has ruled on this, the prevailing interpretation of the term consequences if interpreted through the spirit of the law suggest that the consequences means health related consequences, not workplace mandates or surcharges or punitive measures with the obvious goal of mandating the use of those products.

I would also like to mention that with in regards to the Supreme Court ruling, while they did not directly address whether this Board has the authority to do what they are doing, they did reinforce constitutionally that the intention is not for non elected bureaucrats or Board Members to address or enforce their public health goals on the public as a whole or employers.

I don't believe that the Board has the authority or justification to use coercion while interjecting themselves into the personal choice to accept an experimental vaccine. A question to the Board, we all change the definition of fully vaccinated. Is that going to be a moving goalpost? The Board justifies the use of surcharges for historical use of surcharges in alcohol or tobacco use. I CAPITOL REPORTERS (775)882-5322

would like to illustrate a large difference between that and this subject.

In those cases you're trying to discourage an existing behavior in an attempt to negate possible injury that happens from that behavior. And the case you're trying to make now is you're demanding an action or use of an experimental drug in order to avoid coercive or punitive policy.

I also would like to -- I have a question for the Board. Will you acknowledge natural immunity? The CDC recently acknowledged that in regards to Delta. As the numbers are coming in it proves to be equal to or greater than effectiveness of avoiding major illness, sickness or death. Will you acknowledge that to avoid surcharges?

You use the Governor's Declaration of Emergency to justify your actions. Well, that we've been operating under an emergency condition for more than two years.

There's been plenty of time for the Governor to consult and utilize the legislative process to, when attempting to apply a controversial mandate.

CHAIRWOMAN FREED: Mr. Gutierrez? Mr. Gutierrez, you need to wrap up your comments.

MR. GUTIERREZ: Yes, ma'am. I guess my final statement is you're willing to participate in politics as CAPITOL REPORTERS (775)882-5322

Board Members is troubling. I hope more than a vote by
unelected panel members will be needed in the future to apply
punitive tactics to force me to accept an experimental drug.
Thank you for your time.

MR. HOPKINS: Okay. So the next public comment is Kent Ervin. You have permission to speak.

MR. ERVIN: Kent Ervin, K-e-n-t E-r-v-i-n, State President of the Nevada Faculty Alliance. Good afternoon, Chair Freed, Executive Officer Rich and Committee Members. Thank you for your service today and your dedication to the program.

Because my statement of the \$47,000,000 in excess reserves as of the beginning of fiscal year 2022 in earlier public comment was questioned, I would like to put the values on the record.

We have been told repeatedly that excess reserves amount are only meaningful as of the turn of the fiscal year so those are the numbers I am quoting. The first quarter budget report with the fiscal year closing is being presented for the first time today instead of in November as usual.

According to the first quarter budget report in Agenda Item 4.2.1, the beginning cash balance for FY2022 was \$159,011,280. The mandatory reserves for FY2022 total 112,000,217,030. That amount is the sum of the 52.3 million CAPITOL REPORTERS (775)882-5322

in incurred but not reported liability. 34.9 in catastrophic reserves and 25.1 in HRA reserves for FY2022.

The difference between the 159,000,000 beginning balance and the 112,000,000 in mandatory reserves is \$46,794,250 or about the 47,000,000 in excess reserves as of the beginning of the current fiscal year. In addition, 8.6 million in CARES Act reimbursements, that was not known at the rate setting time is being received in FY2022. That raises the total available to 55,000,000 for new expenditures in fiscal year 2022.

According to e-mail correspondence with Chief Financial Officer Eaton this week, the final cash balance for the close of fiscal year 2021, last fiscal year in the budget report should be 159,011,280 instead of the 154.7 million listed in the table on page two of the report. That revises the excess reserves as of the close of fiscal year 2021 to \$42,111,629. That is up by 9,000,000 from the 33,000,000 that was projected as of the May 7, 2021 legislative budget closing for PEBP.

The mandatory reserves were reduced from FY2021 to FY22 which accounts for another 4.6 million increase in available excess reserves as of the beginning of this fiscal year.

As discussed at the September meeting, the new CAPITOL REPORTERS (775)882-5322

mandatory reserves were calculated by Aon back in August. 1 2 Although, the explanation letter from Aon has yet to be shared with the PEBP Board despite the request by Chair Freed at that time or to the public. 5 Regarding the table on page three of the budget report is not clear to me which items allocated to spending 6 7 down the excess reserves have been included in the budgeted or projected expenses. 8 9 But only a net 8.2 million of the excess reserves is projected to be spent down this year. Over the past 10 decade those spend down projections have been greatly 11 12 overestimated nearly every year. Thank you. CHAIRWOMAN FREED: Mr. Ervin, okay, cool. 13 you, Mr. Ervin. Just on the three-minute mark. Good job. 14 Chair Freed, that was it for public 15 MR. HOPKINS: I did start the slide a little bit later. 16 So if we can maybe just wait a few minutes just to make sure anyone 17 else wants to dial in. 18 19 CHAIRWOMAN FREED: Okay. We will hold for a 20 couple of minutes to see if anybody else has public comment. Also the slide is showing closed meeting happening right now. 21 22 You probably want to change that. 23 MR. HOPKINS: My apologies for that. We have no 24 one else in the waiting area for public comment.

CHAIRWOMAN FREED: Okay. Thank you. That takes care of Agenda Item Eight. Agenda Item Nine is adjournment. And it is 1:13 p.m. and so we are adjourned. Thank you very much, Board Members, staff, vendors, everybody. Have a good afternoon. CAPITOL REPORTERS (775)882-5322
