

The Future of Comprehensive Diabetes Care

The SafeGuardRx® Diabetes Care ValueSM program supports all patients with diabetes, addressing pre-diabetes, type 1 and type 2 diabetes and even common comorbidities like obesity.

ENCOURAGE HEALTHIER LIFESTYLES +

Our digital diabetes prevention and obesity solution offers a personalized coaching and weight loss program, including an app-connected scale, to help patients avoid type 2 diabetes.

PERSONALIZE DIGITAL SUPPORT +

Our digital diabetes solution for type 1 and type 2 diabetes includes a mobile phone-connected glucose meter, certified diabetes educators and a digital platform with personalized insights to deliver meaningful recommendations to patients.

+ IMPROVE THE PHARMACY EXPERIENCE

Preferred quality pharmacy networks and home delivery through the Express Scripts® Pharmacy provide a better patient pharmacy experience, improving adherence to diabetes care.

+ ENHANCE CARE WITH CONTINUOUS GLUCOSE MONITORS

When clinically appropriate, continuous glucose monitors (CGMs) provide patients with actionable insights using data from a sensor inserted under the skin that wirelessly tracks and reports the patient's glucose levels.

+ PROVIDE SPECIALIZED SUPPORT

The Express Scripts® Diabetes Therapeutic Resource CenterSM helps eliminate gaps in care through proactive, data-driven outreach to patients with diabetes and patients who are pre-diabetic.

We help plans manage diabetes costs through:

- + **Our National Preferred Formulary and utilization management**
Directs members to the most clinically effective, lowest cost medications.
- + **Financial reimbursement when patients fall off therapy**
Reimburses eligible plans up to \$150 for select medications if a member discontinues therapy within the first 90 days.
- + **Comprehensive patient support and engagement tools to lower medical costs**
Translates to meaningful savings for plans. In 2021 alone, plans avoided spending \$20M in medical costs by using our digital diabetes prevention and obesity solution. And our digital diabetes support for type 1 and type 2 diabetes saved plans \$83 per participant per month.
