# CERTIFICATION OF TREATING HEALTH CARE PROVIDER FOR EXPEDITED CONSIDERATION OF A PATIENT'S EXTERNAL REVIEW

#### NOTE TO THE TREATING HEALTH CARE PROVIDER:

Patients can request an external review when their health care provider (PEBP) has denied a health care service or course of treatment on the basis of a utilization review determination that the requested health care service or course of treatment does not meet the health carrier's requirements for medical necessity, appropriateness, health care setting, level of care of effectiveness of the health care service or treatment you requested. The Office for Consumer Health Assistance oversees external reviews. The standard external review process can take up to 15 days from the date the patient's request for external review is received by the Office for Consumer Health Assistance. Expedited external review is available only if the patient's treating health care provider certifies that adherence to the time frame for the standard external review would seriously jeopardize the life or health of the covered person or would jeopardize the covered person's ability to regain maximum function. An expedited external review must be completed at most within 72 hours of receipt. This form is for the purpose of providing the certification necessary to initiate expedited review.
